MTC employee drowns on job

A 60-year-old Ministry of Transportation and Communications worker drowned last Friday after he was dragged through a four foot culvert he was trying to clear.

Alan Douglas Brown of Kinmount was working with his partner, Robert Swanton, in the Irondale area when it is believed he slipped into the water north of Highway 503. His body was found 200 feet downstream by his fellow MTC workers.

Described as a good swimmer, Brown was wearing heavy rubber boots when the accident occurred.

The men were working in the area to clear culverts which had become blocked after recent rains. Swanton had walked upstream to see how far the water extended, leaving Brown alone for just a short time. When he returned, Brown was missing and a search was organized.

Building boom on in Dysart

Building activity appears to be booming in Dysart et al, but the total value of the projects begun or completed so far this year is less than for the same period last year.

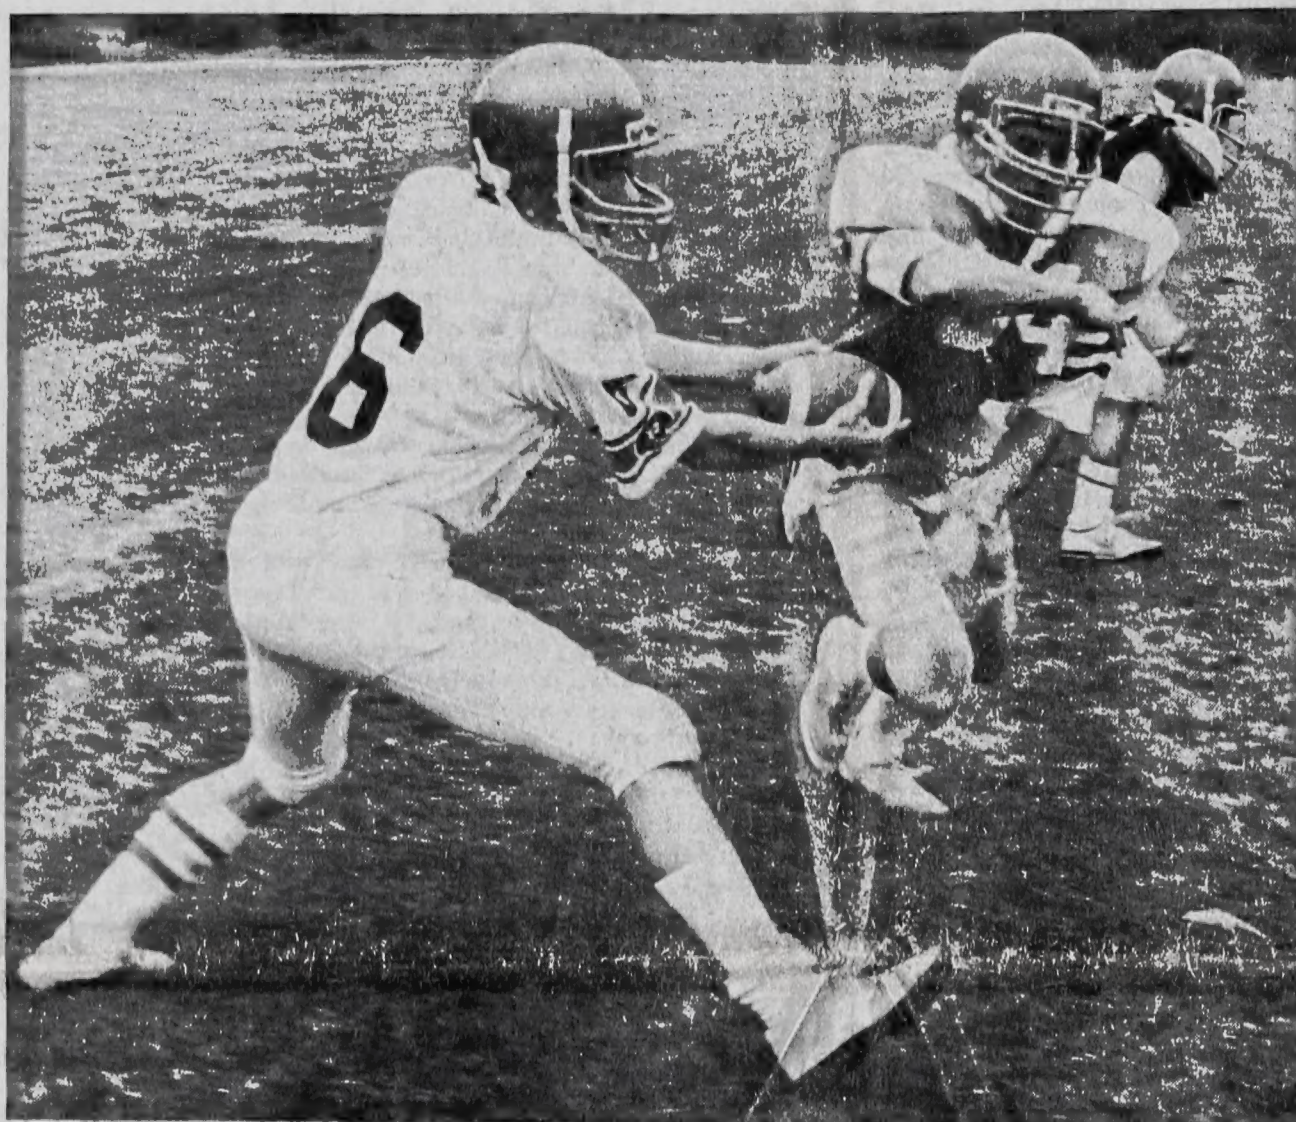

Municipal building official Bob English said 229 permits had been issued by September 6, 44 more than at the same time last year. However an absence of large scale projects has kept the total value of the work well below 1984's level.

Last year, 257 building permits were issued in Dysart for projects with a total estimated value of \$6,493,280. There were 16 new dwellings and 67 new cottages were built last year, but more than a quarter of the \$6.4 million in new construction was tied up in two projects, the G. W. Martin Lumber office complex and expanded convention facilities at PineStone Inn.

So far this year the total estimated value of construction projects in Dysart is \$3.9 million, with 19 new houses and 55 cottages completed or underway.

The jump in the number of permits reflects a trend toward expansion and renovation of existing homes and cottages, Bob English said, which also explains why the number of permits is up while the value of the work undertaken is less.

Building activity, traditionally surges in September, and English said that base on enquiries he has received, he expects the fall will be a busy time for local contractors.

Haliburton Senior Redmen quarterback Trevor Powers hands off to one of his backfielders during a practice at HHSS last Friday. The Redmen open their

season this Friday against Fenelon Falls. For more on this year's team, see this week's sports pages.

Dysart LEAD plan criticized

Entrepreneurial spirit damaged, council is told

A proposed federally funded 12,000 square foot industrial building in Haliburton's industrial park has raised the concerns of at least one local entrepreneur, who feels it may jeopardize the investment local people have made in commercial buildings.

John Beachli told Dysart council on Monday that the proposed Local Employment Assistance Development (LEAD) project for the industrial park will create a glut of rental space in the community if any of the four ventures slated to occupy the building fail. He said the building's prospective tenants should have been referred to local people with space to rent before the project was submitted to the LEAD board.

"People who have built in the past have shown faith in the community," he said, noting that existing commercial space was paid

for with after-tax dollars, "not government handouts".

"You're going to get private enterprise right where it hurts," Beachli said.

Reeve Murray Fearrey said he agreed in principal with Beachli's objection to government handouts. But he said council has an obligation to go after those dollars for job creation, as every other community across the country is doing.

Fearrey said council had "no choice" but to submit an application to the LEAD board for the building.

"I'm saying that you do have a choice," Beachli countered. "I'm saying that the whole decision here was a snap one. I don't think that there was enough thought put into it. 'We're chasing a rainbow'".

Beachli claimed the jobs that would be created by the new ventures would be "four and five dollar an hour jobs, and for that

you're willing to give up the whole entrepreneurial approach to commercial space in the community for the future".

Fearrey said the real issue before council was job creation. The businesses that would use the new building would create 20 jobs in the community, and that if even 10 of them are stable, the community would be strengthened.

"What makes a community grow?" Fearrey asked. "Isn't it the fact that you're creating jobs" which have spinoff effects, resulting in other local jobs.

"It's a double edged sword," the reeve said, noting that if Beachli's concerns could be alleviated, everyone would benefit.

Businesses proposed for the LEAD funded building include a boat top and snowmobile cover

Cottagers object to compromise

Dysart is 'fed up', wants road built

Saying it is "fed up" with a problem that goes back to the early 1960's, Dysart et al council will insist that the Bank of Montreal live up to the terms of subdivision agreement and construct a road at Coleman Lake to municipal standards.

Council is also demanding payment of back taxes on the property, and will register to seize it if the taxes are not paid.

been exceeded. As well, they wanted a say in how the road was built, and sought controls over possible lumbering activity on adjacent lands owned by the bank.

Fearrey said council can't work with the cottagers demands, and instead told the bank's representative on Monday that the best compromise would be to give the block and two lots to the cottage group, hire a local contractor to complete the road using the adja-

Tax arrears must be paid

Council told Bank of Montreal representative John Dennison on Monday that the road would have to be built by private contractors and that the taxes will have to be paid or legal action will be taken.

The bank had sought a compromise under which the municipality would construct the road and would receive a gravel deposit and three other parcels of land in return.

The subdivision on Coleman Lake, south of Kennisis, was developed by an individual named MacIntosh in the early 1960's. The agreement between the developer and the council of the day stated that the road to the properties had to be constructed to municipal standards at the developer's expense. That has never happened, despite pressure from succeeding councils which consistently turned down the developer's offer to trade gravel for the necessary work.

Earlier this year, responsibility for the development passed to the Bank of Montreal, which held mortgages on the property.

Reeve Murray Fearrey said council reached an agreement with the bank earlier this year to allow three more lots to be created on the lake. The municipality would in turn take title to one block of land and two other unsold lots, plus 10 acres of gravel pit, and would construct the road to municipal standards.

The agreement fell through however, because cottage owners on the lake voiced strong objections.

The reeve said the cottagers opposed new building lots because the lake's development capacity has

ent gravel deposit, and sell the other three lots to recoup the cost.

"We're fed up with dealing with this thing," reeve Fearrey told Dennison.

Road superintendent Howard Roberts estimated that it would cost about \$15,000 to complete the necessary road work using the materials already owned by the bank.

Dennison said he would take the suggestions back to bank officials for a decision.

In the meantime, council stressed that back taxes must be paid or it will take further legal action, as required under The Municipal Act.

Stores to close for Civic holiday

Stores in Haliburton, Minden and other area communities will be closed next Monday for the civic holiday, which traditionally is deferred from August 1 because of the tourist season.

Local post offices will remain open for normal service, but banks, as well as most retail outlets, will not be open.

The Haliburton County Echo will be open as usual next Monday, and our normal deadlines of 5 p.m. Monday for classified and display advertising, will apply.

Terry Fox run goes Sunday

The fifth annual Haliburton area Terry Fox run gets underway this Sunday, September 15 at 2 p.m.

Starting point for the 10 kilometre run is the government dock. Registration begins at 1:30 p.m. and everyone who takes part must register.

The 10 kilometre run begins at the dock, follows a gently rolling route down County Road 18 to the Haliburton Highlands Golf Club, and returns.

While the run always attracts a number of avid runners and joggers from the community,

organizers emphasize that you don't have to be an athlete to take part. You can walk or bicycle the course at your own pace. All you need is the determination to cover the distance and raise money for a

Pledge sheets for this year's run are available at any post office, the Haliburton County Echo, the Home Support Drop-in Centre, J. Douglas Hodgson elementary school, Haliburton Highlands Secondary School, the

worthwhile cause - The Terry Fox Marathon of Hope fund, interest from which is used to finance research into causes and possible cures for cancer.

Times in Minden, Archie Stouffer Elementary School, and Carnarvon Building Supplies in Carnarvon.

See you there!

Several dozen runners participated in last year's Terry Fox Run in Haliburton, and organizers are

hoping for at least as good a turnout this year. The run gets underway this Sunday at 2 p.m.

Police News

Man rescued

A Niagara Falls man escaped a near death Saturday when he was rescued from the Buckslide Dam in Stanhope Township.

Martin Davies, 28, was swimming in the fast water below the dam when he was swept up against the stop logs by the current. A safety ring was thrown out to him when the other people at the scene realized he could not free himself and Davies was pulled safely to shore.

He was taken to the Minden hospital where he was treated and released.

Guns stolen

Some rifles and ammunition have been stolen from a cabin in Snowdon Township causing the Minden OPP to issue a request to the public to report any suspicious activities in the area.

The OPP discovered the theft after some mushroom pickers reported that when they approached a cabin near Highway 503, the light was turned off and furniture was heard being pushed around. By the time the OPP arrived at the scene there were no people in the cabin but there were signs, such as a warm teapot, that it had recently been vacated.

Upon further search in the area, it was discovered that several residences had been broken into. No vehicle was seen in the vicinity so police believe the thieves may still be in the area. There is also the possibility that at least one man and one woman had been living in the cabin after the break-in.

Safe foils thieves

Thieves attempted to break into the safe of the Home and Hearth store in Carnarvon after they entered the building sometime on Saturday night. They were unable to get into the safe and it is unknown as yet if anything else was stolen.

Breakins reported

A \$3,000 video camera and other items with a combined value of \$1,000 were stolen from two cottages on KENNISIS Lake. The report of break-ins follows last week's report of other break-ins which occurred at the same time.

Centre ransacked

The Harcourt Park Community Centre was ransacked over the Labour Day weekend. Speakers were pulled down, tables overturned and beer was sprayed around but the Minden OPP reports there was no serious damage.

Tickets stolen

Last Saturday night person(s) unknown pried open the rear window of the Wilberforce Legion and stole a quantity of lottery tickets and cigarettes. The Legion is being examined by the Peterborough Identification Unit.

Welding gear

Oxy-acetylene torches and two tanks of oxygen and acetylene were stolen over the weekend from the Lutterworth Township garage on Highway 35. The thieves pried open a window.

Youth arrested

The Minden OPP have arrested a Haliburton youth they believe is responsible for the break and enter of the Stanhope Township Community Centre on August 29. Arthur Upton, 18, of RRI, Haliburton was arrested Thursday.

Businesses warned

Business owners are being advised to make more use of daily bank deposits after an increase of break and enters into commercial buildings. Potential safe-breaking tools, such as torches and tanks, have been stolen so the Minden OPP are telling owners to keep their cash amounts at the stores as low as possible.

In the past two weeks, drug stores in the other parts of the Peterborough OPP District have been broken into with large amounts of merchandise stolen.

"All Neighbourhood Watch participants are asked to be particularly vigilant while in the commercial areas of the county and to report any suspicious after-hours activity to our detachment," says PC Gary Chapman.

Accidents drop

Now that summer is over, the Minden OPP report that there are fewer accidents occurring on Haliburton highways. Last week they investigated seven accidents but there were no personal injuries sustained in any of them.

Board of Ed. briefs...

A regular meeting of the Haliburton County Board of Education was held in the board office on Tuesday, August 27, 1985 at 8 p.m.

A presentation was made by Ray Johnson, requesting that his son be allowed to attend Kindergarten at Victoria Street School in Haliburton, rather than Archie Stouffer Elementary School in Minden.

A presentation was made by Ms. Francine Moulard of Dorset (Haliburton County), requesting the Board to allow her daughter to attend Grade 4 at Irwin Memorial School, rather than Dorset Elementary School.

A presentation was made by J. Mosey, of Mosey and Mosey Insurance Brokers, concerning the benefit package for board employees.

The board approved the Grade 8 school trip from the Hodgson Elementary School to Camp Wanakita. The trip is to take place on October 3 and 4, under the supervision of David Kennedy.

Trustees supported the resolution of the Victoria County Board of Education to petition the Ministry of Education to agree that any savings made regarding Memorandum 1985-B4 (new definition of full-time pupils) in grant dollars be re-distributed to the public secondary boards of education.

The board also supported the resolution of the York Region Board of Education concerning the use and purchase of ICON hardware and software in the education system of Ontario.

A subscription with the Ontario Public School Trustees' Association for its Data Research for 1985-1986, was renewed.

A request from Ms. Janice Jones was received on behalf of the citizens of Dorset for the use of a room in the school for a day-care centre. It was decided that a committee, consisting of David Villard, trustee; Stan Baker, business administrator; Ruth McLennan, principal; and Janice Jones, representing the day care centre, would meet at the school in Dorset to study the proposal. This committee will report back to the board at its September meeting.

The board ratified the hiring of Cameron Bolt to teach on a probationary contract at the Haliburton Highlands Secondary School, commencing in September.

An agreement was entered into with the Scarborough Board of Education to purchase the services of its employee, Andrew Hemphill, who will assume the duties of principal of the Haliburton Highlands Secondary School for a three-year term, commencing September 1, 1985.

The probationary contract for Juliana Quartel was ratified. She will receive a half-time probationary contract commencing September, 1985.

The board ratified the appointment of Rosemary Kenney and Kenneth Rydman as vice

principals of the Haliburton Highlands Secondary School for a two-year term, commencing September 1, 1985. Each vice principal will work on administration half time.

The policy statement concerning administration at the secondary school was amended to state that the position of vice principal (formerly administrative assistant) will be shared by two people for the school years 1985-1986 and 1986-1987, with the intention that commencing September, 1987 this position will be held by one person. Each of the two vice principals will assume these responsibilities on a half-time basis, for a one year term. Commencing September, 1987 the position of vice principal will be full time.

Linda Mumford reported on a meeting with Cardiff Council, held in the council chambers on Friday, August 2, 1985. The purpose of the meeting was to discuss the change of bus routes in order to transport secondary school students from the Highland Grove area to Haliburton, rather than Bancroft. Stuart Baker, Director of Education, explained to council members that the change was being made in an effort to reduce the cost of tuition fees presently being paid to the Hastings County Board.

Bonnie-Lee Berry reported that the next stage of the CEDSS review was to establish a monitoring committee. The ministry recommends that this committee be few in number and accept the responsibility of monitoring the recommendations approved during the earlier stages of the review. It was agreed that the membership of this committee would consist of: two trustees, two teachers; one principal and the Director of Education. The members of this committee will be appointed for a three-year term.

A tender submitted by Niagara Relocatable Buildings Limited to provide and locate a portable classroom on the site of the Archie Stouffer Elementary School, for the sum of \$17,825, was accepted.

The following persons were approved for transporting students by car or other suitable vehicle to and from school for 1985-1986, subject to the requirements of board policy: Beryl Congdon, Graham Avery, Donald Donaldson, Laurie McCord, Bethy Bacon, Lee Clarke and Gordon Sharpless, and the kilometer rate was increased by 3.6% over the 1984/85 rates.

The contract of William Vanderhorst to operate the Haliburton Highlands Secondary School cafeteria was approved for the 1985-86 school year. The menu items and prices to be charged in the cafeteria for the school year 1985-86 are to remain the same as approved for the 1984-85 school year.

The contract with Norm's Garbage Disposal Pick-up Service for 1985-86 in the amount of \$272

Murray Dryden to speak

By MARTHA PERKINS
Staff Reporter

For many young Canadian boys, sleepless nights were spent tossing in their beds, dreaming of one day becoming hockey greats like their heroes, Ken and Dave Dryden.

But the father of these two National Hockey League goaltenders was disheartened by the realization that many children in developing countries had no bed to lie on

Grant given

A community planning grant of \$12,200 has been awarded to the Townships of Anson, Hindon and Minden, John Eakins, Minister of Tourism and Recreation, announced recently.

Speaking on behalf of Municipal Affairs Minister Bernard Grand-maitre, Eakins said the grant will be used by the Townships to prepare a new comprehensive zoning by-law.

Plan criticized

from page 1
manufacturing enterprise, a dry cleaning plant, a small tool manufacturing business, and an electrical supply warehouse.

"All we've got is an approval in principal," Fearrey said. "It isn't going to be done over a cup of coffee. We'll draft something and talk about it. It'll be a public document when it's done."

Beachli said the long term issue "is, don't cut us (local entrepreneurs) out of the market place in the future".

The building proposal has been approved by the local LEAD board, but has not yet been submitted for federal government approval.

or blanket to keep them warm.

In 1970, Murray Dryden set up Sleeping Children Around the World, a non-profit organization designed to give children a warm and comfortable night-time haven.

With each \$25 donation he receives from individuals, service clubs and corporations, Dryden provides a needy child with a "slumber kit" -- mattress, rubber sheet, two cotton sheets, a pillow, two pairs of pyjamas and a mosquito net or extra blanket.

On Monday night at 8 p.m. Dryden will be continuing his crusade for funds with a visit to Haliburton United Church at the request of its women's group.

Dryden will be speaking on his experiences travelling the world, providing hope and comfort for hundreds of thousands of children.

Remembering the tough going of the Depression and the many nights he curled up on the pavement, with only newspapers between him and the cold cement, one of Dryden's favourite sights is a child sleeping peacefully on a soft mattress.

Thanks to his efforts, more than 85,000 children can now forget their hunger and hardship at least for a few hours a day. With many volunteers helping him along with the support of different churches and groups, donors need not worry that the money never reaches the child. A picture of a child sleeping on the mattress provided by the donation is sent to each contributor so people know exactly how their money is being spent and who it is being spent on.

After his talk and slide presentation on Monday, Dryden will be on hand to answer any questions by interested listeners and will autograph copies of his book, "With God, Nothing is Impossible".

Driver Murray Parish looks over the damage to his pickup truck following a rear-end collision on Highway 121 in Haliburton Monday. The accident

occurred when a third vehicle slowed to turn off the highway.

Damage extensive in rear collision near Haliburton

Two Dysart residents have been charged with following too closely after a two-vehicle accident Monday evening at 5 on Highland Street in Haliburton.

Dawn Windover, 31, of Dysart, had stopped on the road to make a left hand turn into a driveway when she noticed a car skidding towards the rear of her 1972 Volkswagen. She drove ahead and was able to make the turn, avoiding the accident.

But \$5,000 damage was sustained to the rear of a truck driven by Donna Hodgson. Hodgson, 25, of Dysart, had stopped behind the Windover vehicle when she was struck by another pickup truck driven by Murray Parish, 19, of Dysart. His truck incurred \$5,000 damage.

Hodgson and passenger Leonard Hodgson, 23, were taken to the Haliburton hospital where they were treated and released.

Minden PC Boyd Jarvis, who investigated the accident, charged both Hodgson and Parish.

Fitness centre proposed

Minden could get a fitness centre and spa on its main street if enough people in the community are interested in taking out memberships in the proposed facility.

Patti Prentice, who along with Sharon Poldas is proposing to operate the centre, said a public meeting will be held this Thursday night at the municipal office to gauge response to the project.

It would be located in the multi-use building proposed for the former Welch property under the Local Employment Assistance Development (LEAD) project. Council has endorsed the proposed building, which would house a branch of CHACE place, a day care centre, and retail outlets as well as the fitness facility.

Patti Prentice said the proposed 1000 square foot fitness centre would be on the second storey of the building, and has been included in architects plans accompanying the LEAD proposal. Facilities at the centre would be comprised of an exercise room, change and shower area, a sauna and possibly a weight room. It would be open year round on a daily basis, operated as a business by Prentice and Poldas, who intend to obtain fitness instructor certification.

Prentice says they are treating the centre as "a definite venture", but will not know if it is feasible until after Thursday's public meeting.

As well as individual memberships, the two women are hoping that major employers in the area will indicate an interest in having their workers make use of the fitness centre.

Donna Hodgson and passenger Leonard Hodgson were treated at Haliburton hospital and released after this truck was struck from the rear on Highway 121 in Haliburton Monday.

Board of Education briefs...

from page 2
was approved.

Expenditures for June in the amount of \$1,043,107.21 were approved.

Expenditures for July, 1985, in the amount of \$442,731.76 were also approved.

The transfer of William Powell from the Gooderham Elementary School custodial staff to the J. Douglas Hodgson Elementary School Custodial Staff, on a temporary basis was approved.

The employment of Shirley Winder, as custodian for the Gooderham Elementary School, on a temporary basis, was approved.

The board accepted the proposed policy statement concerning procedure for administering medication to students, effective September 1, 1985.

Trustees agreed to have Stuart Baker, director of education, assist as an evaluator for the Ministry of Education's oral examination for supervisory officers. These examinations are to be held during three days in March, 1986.

The board approved the hiring of a teacher's aide for the special education class at the Victoria Street Elementary School for the school year 1985-86, if deemed necessary by the director of education.

Use of the Gooderham School for the existing day care program, one-half day per week was approved for the school year 1985-86.

The board ratified the hiring of Bruce Griffith to teach at the Chimo facility, under a Section 16 agreement with the Ministry of Education, commencing September 1, 1985.

Personnel matters were discussed in committee-of-the-whole.

Trustees directed Stuart Baker, as secretary of the board, to inform Mr. and Mrs. Ray Johnson that their son is expected to attend Kindergarten at the Archie Stouffer Elementary School in Minden. Mrs. Moulard is to be informed that her daughter is expected to attend Grade 4 at the Dorset Elementary School.

The board established a three-year grid for the Director of Education, with increments of \$2,000, beginning August 1, 1985.

Trustees agreed to increase the hourly wage of Teachers' Aides by 5%, commencing September 1, 1985. Commencing January 1, 1986 the hourly rate will become \$6.50.

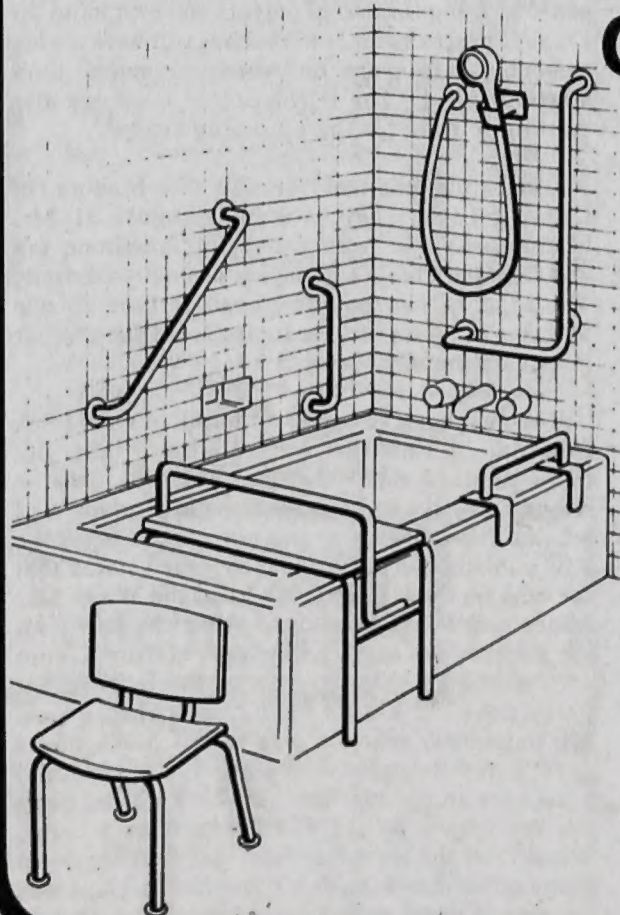

The board also agreed to increase the salary of the Business Administrator by 5%, effective August 1, 1985.

The board agreed to increase the salary of the Director of Education by 3.9%, effective August 1, 1985.

Time to run

It may seem just a little early to start thinking about November's municipal election, but there are signs that the campaigning is about to begin. In Minden, councillor Gary Kenney is already voicing the platform with which he intends to seek the reeve's chair, and Bern Barry, an area resident, has announced he'll try for a council seat. In Dysart, word is already passing up and down main street about who might go after what job, although so far there have been no formal announcements. Within the next couple of weeks it is likely that at least some of the incumbents and contenders will openly hit the campaign trail.

All of this is a sign that democracy, at least at the local level, is still alive if not quite as healthy as it might be. In recent years some seats have been given away by acclamation, and not always because the incumbents were worthy of continued support. Sometimes mere apathy has determined who holds responsible office on local councils and the board of education. The result has been a weakening of the democratic process and political bodies that don't function as well as they could. And that should concern every local citizen.

It's easy to understand why there aren't five contenders for every council and board of education seat, of course. Political office at the local level is far from glamorous. The pay is insignificant, and the problems that come with the job are enormous. It's tough to make political decisions in a small community, where personal, family and business relationships so often intertwine. Who needs that kind of pressure, most people say, when there are more than enough problems in everyday life. Let someone else deal with the hassles.

That sort of approach to the political process is understandable, but hardly desirable. Councils and the board of education operate at the very centre of the community, and their strengths and weaknesses effect everyone. Good councillors can help a community grow and prosper. Poor ones can set it back 10 years in a morning. Wise trustees can play a role in giving the local youngsters the best possible educational opportunities. Ill-informed and uninterested trustees can foment negative attitudes that hold the system back.

With so much at stake, everyone who believes they could add something positive to local politics should consider running for office. The jobs are thankless, but they are absolutely vital. And they should not be abandoned to people with little or nothing to contribute.

If you want to see the community improve, you'll find few better places to direct your energy than toward a council or school board seat.

A good cause

It has been four years now since Terry Fox died of the cancer he battled within himself and through his Marathon of Hope. The image of his tousled hair and lurching gait that haunted Canadians in that brave summer has dimmed in our collective memories. He is remembered as a Canadian hero - perhaps the best example of sheer will and determination that the country has ever witnessed - but the emotional intensity that surrounded his final illness and death no longer burns as brightly in our hearts.

And yet the cause for which Terry Fox ran has not been forgotten. His Marathon of Hope survives each September in hundreds of communities across Canada.

This Sunday, local people will have a chance to honour his memory and through participation in a 10 kilometer 'run' (or walk, or ride) that begins and ends at the government dock in Haliburton.

Don't let his dream of a cure for cancer fade. Participate. Few things are more worth doing.

Reader clarifies Halls Lake issues

To the Editor

To the Editor:

I am writing regarding the August 28 article "Halls Lake cottagers will challenge by-law".

The overall reporting of the meeting and the feelings of those present is well portrayed however there are some inaccuracies which I feel should be clarified.

First, I am not the Sec./Treas. of the Halls Lake Cottagers Association although we do have their full support in this endeavour. The group I represent is called the Concerned Citizens of Halls Lake, a group which was formed this past summer and whose sole purpose is to oppose the proposed trailer park on Halls Lake.

Second, the OMB hearing will not be "at our expense" but will be very costly to us as we have had to hire top legal counsel to represent us at the hearing as well as experts to undertake studies which should have been addressed by council before considering zoning lands for trailer park use.

Third, the article states that council had given Offen verbal permission to develop 100 sites. This is not the case. Offen made a verbal proposal in 1985 for 100 sites but had not submitted a written proposal. However, more significantly, he had been given tentative approval in 1980 for 157 sites subject to Health Department approval. At that time no notice was given to the adjacent property owners; as a matter of fact it surfaced during our searches this summer. Such a development would have been contrary to the then-existing by-laws as interpreted by our lawyer and confirmed by the planner John McDermott at the August 24 public meeting. Fortunately for all concerned, Offen did not pursue that proposal further. Unfortunately, the zoning of his property under the new by-law is based on that 1980 proposal.

Fourth, Dr. Offen has not stated how long the licences would be issued for, but by law they could not be for longer than 20 years.

Fifth, the new by-law permits 65 sites instead of 100 as proposed by Offen, representing a 16% increase in population on .6% of available shoreline.

Although we are pleased that we were able to persuade council to pass the interim control by-law the scope of the study to be undertaken is very limited. Water quality is certainly our prime concern but the study should also have encom-

passed the issues of road and boat traffic, launching and docking facilities, wildlife affected, dump capacity, available services; i.e., fire, police, ambulance, by-law enforcement, etc. The interim control by-law is in effect for one year but can be lifted as soon as the study is complete.

It remains now for the OMB to decide the proper use of this particular property. Hopefully they will listen to the voice of the hundreds of concerned people who will be affected by this proposed development.

Elaine Burbidge for
Concerned Citizens of Hall's Lake

Few 'classics'

TO THE EDITOR:

When is a classic not a classic? There has been an upsurge in recent years of shows, rallies and gatherings of old automobiles. Newspapers have been extremely cooperative in announcing and describing these events. In doing such one term however, much to the abhorrence of true old car enthusiasts, is very much misused. That is the word 'classic', and some clarification is in order.

All old cars are not classics, regardless of the excellence with which they may have been restored. There are very few true classics. A car, to be such, has to be specified by the Classic Car Club of America as a classic. Classic automobiles are cars of special distinction manufactured from 1930 to 1942 - with the exception of the Lincoln Continental which includes up to 1948. American made classics include only the following: Auburn 8 and V12, Buick Limited Series 90, 1931-42, all Cadillacs, Chrysler Imperial models, all Cords, all Duesenbergs, all Franklins, all La Salles, all Lincolns (except Zephers) to 1948, Marmon V16, all Packards except 110 and 120 models, all Pierce Arrows, all Rolls Royces (many were made in the U.S.).

In addition the list comprises several foreign cars such as Alfa-Romeo and Bentley, among others.

The correct and only term that should be used in describing a gathering of old cars is 'historical'. All cars 25 years or older are historical vehicles, regardless of their condition. These cars for judging and other purposes, are divided as follows: Brass Era - brass trimmed cars up to 1916 approximately; antique cars - all other cars up to 1929; early special interest - 1930 to 1942; classics - 1930-42 as approved by the ACCCA; prestige vehicles - 1946 to 1960 as approved by ACCCA; late special interest - 1946 to 1960; milestone cars

Feir play

by Creighton Feir

It's hard to let another week go by without mentioning the tremendous success of the Kinmount Fair which was held on Labour Day weekend. Without a doubt this has to be one of the best small town fairs in Ontario. Just stop and think for a moment about the fact that over 35,000 people were attracted to the three-day event. This record crowd speaks for itself. You might wonder why all the people turn out for the Kinmount Fair year after year. This answer is simple. This outstanding fair with the forward look has something for everyone. The people behind the Kinmount Fair are always on the lookout for top notch entertainment and they aren't afraid to spend a few bucks to reach this goal. One must also remember that this annual event just doesn't happen, it takes the work of hard working M.P. Bill Scott and his family and many other community-minded citizens who sit on the fair board while others give freely of their time in one way or the other to help out in any way they can. I understand that it takes 150 people to handle the various events. Without this kind of cooperation from the people of Kinmount and surrounding area it would be impossible to operate such a big attraction. Just imagine well over 1500 people participated in the parade. This is an accomplishment by itself. Keep up the good work you good people of Kinmount.

One of Haliburton's first pioneers was in Haliburton over the weekend for the wedding of her grandson Rob Wrightman, son of Mr. and Mrs. Ron Wrightman. Sarah Wrightman, who now hails from Newmarket and who is 91 years of age, is Ron Wrightman's grandmother and Rob Wrightman's great grandmother. Sarah Wrightman can recall many things of the past and she remembers when Lakings mill was in full swing at the dam on the Drag River in the village and she remembers the logging days when it was very hard to make a dollar. Times, in other words, were really tough. Her husband was the first steam engineer in Haliburton to operate a saw mill. There was a grist mill on the Drag River and Mrs. Wrightman, who was an outstanding cook, would bake bread and it was on display and for sale at one of the business places on the main street in those days. At one time she was in charge of feeding 186 loggers in a lumber camp. She has had a remarkable life and loves to talk about the good old days in Haliburton County.

The fifth annual Terry Fox Run is set for Haliburton this coming Sunday, September 15. On that day people all across Canada will be running, walking or jogging to help raise money and in the end hopefully a cure for cancer will be found. Let's make this year's run twice the success. Bring a friend. You can get involved by picking up your pledge sheet today and getting it filled out.

There is a family fun night coming up that you won't want to miss. In an effort to raise money for the St. George's Anglican Church Building Fund the members of the United Church at Haliburton are holding a "United-Anglo Fund-A" talent night along with refreshments at the Haliburton Highlands Secondary School this coming Sunday evening, September 15 at 7:30 p.m. We understand that a great show has been lined up and Bob Short will be M.C. for the evening. United Church members are reminded to place their donations in a church envelope or regular envelope and hand it in at the family fun night. This will be your ticket to get in. May we remind you that everyone is welcome to attend.

You can tell that it's fall when you see the H.H.S.S. Redmen football team working out on the football field at the high school. I had the opportunity to see them on two occasions working themselves in shape for the opening game of the season. A big turnout of players were on hand for the first practices and the coaches will have a wide selection of players on which to select their starting squad. The HHSS soccer team are also starting to train for the upcoming season.

Congratulations to Mr. T. E. Madore of Canning Lake. On Saturday, August 31 Mr. Madore was the lucky winner of PineStone Inn and Country Club's ratepayers promotional draw. Mr. Madore has had the good fortune to win Thanksgiving dinners for himself and three other guests on Sunday, October 13.

It seems that it is very easy for all of us to think from time to time that we are always right. But there comes a time when we are proven to be wrong and have to be man enough to admit it. I fell into this category a week ago. In our Pic of the Past published in our August 28 issue I stated that the man on the left of the photo at the White Star Mines was Percy Bolender. After the paper hit the streets I met Steve Kirkpatrick at Kosy Korner and he told me that the man on the left was not Percy Bolender but he wasn't sure who he was. My immediate reaction was to tell Steve that I knew Percy Bolender ever since I was a kid and grew up with his son Ron. In other words, don't tell me who is in the picture because I know. When I left the restaurant and was heading down to my office the thought hit me that maybe I was wrong. When I took a good look at the photo I started to have doubts and I later found out that the man in the photo wasn't Percy Bolender but that it was Jack Wensley. My apologies to Steve and Harvey Fearrey.

Promotion shifts after busy summer

Chamber

By SHIRLEY RAPSON
Manager

Thanks to a fine effort this summer from an enthusiastic and knowledgeable staff, Lorna Hicks, Dawn Elliott, Christine Neave, Michelle Allore, Michelle Parish and Kim Mumford, enquires were answered, directions given, maps were sold and everyone was welcomed to our county. You can be proud of your Chamber of Commerce as it met the tourists' needs and helped to make their visit to the Highlands a happy one. Highlights of the summer began with the tremendously successful Ride For Sight and finished with the equally successful Canadian Kayak Championships. Many, many, more events and activities were brought to us and promoted by the Chamber during the season.

With our fall promotion plan already being implemented (we were at the Eaton Centre last

week) we expect to have a busy winter as well. October will see us representing Haliburton County at the annual Ski Show and later in the month at the singles show. This new show is dedicated to capturing the affluent, mobile sector of society as it seeks experience and travel. We will try to lure them to the Highlands of Haliburton. We will be telling the story of the cross-country trails and accommodations and downhill facilities and for snowmobile enthusiasts, we will also provide information on trails.

The official opening of our new building on September 18, 1985 by county officials and the Chamber board of directors will be a prelude to a very interesting season. We look forward to countywide participation as we plan for our annual meeting in October. Any community-minded person can become a chamber member.

You don't buy a newspaper, you buy news. You don't buy life insurance, you buy security for others. You don't buy glasses, you buy vision. You don't buy awnings, you buy shade. You don't buy membership in the Chamber of Commerce, you buy cooperation of the ablest men and women in the community with whom you can join hands to do the kind of things you cannot do alone.

Don't start building that Ark yet

Northern Lights

by Virginia Muenzel

I dreamed I was standing at my front door, and the water was lapping at the lawn and washing it away. I'm willing to take that as an indication that we've had enough rain. My onions are rotting. The hens are sliding around their outdoor pen, up to their bellies in mud. The motor boat has almost as much water in it as under it.

Now, I know we aren't supposed to have to go through that "ark" thing again. Maybe He's just trying to give us something to think about.

We shouldn't complain. At least it's not cold anymore. It's probably the most "not cold" we've had all summer. It's rather like we've all been dropped into an enormous sauna. Close and claustrophobic.

For days, we hurriedly turned on the radio upon

arising, hoping to hear the weatherman mention something about the sun. He did. He mentioned we wouldn't be seeing much of it.

I'm depressed. Everyone's depressed. And getting testy too. Especially all those lodge guests who've paid umpty-seven dollars for a restful romp in the sun. Somehow, they consider the manager to be personally responsible for the weather. Consequently, he's getting testy too. (It should only rain at night.) At least we don't have to worry about the meals cooling off. It's so steamy in the kitchen, we've taken to going out and standing in the rain several times an evening to cool ourselves down.

But take heart. I have it on good authority that this will soon be over. The other night, when the sky cleared for awhile, there was a circle of haze around the moon. That, my grandfather used to say, meant a drastic change in the weather coming. Besides, (and I swear I'm not making this up) yesterday afternoon, Ed looked up, upon hearing a distinct honking, to see five Canadian geese flying due south.

Cricket chirps nearly blanket world

Ont. Naturalists

By MIKE SINGLETON

As dusk approaches, the troubadour advances to the mouth of his neatly arranged cave. Bow and fiddle held high (above his back), he commences his serenade.

Crickets, in full song over the next few weeks, are taken for granted by most of us. But to those who'll take a close look, they are a remarkable group of insects.

So successful are crickets' adaptations that they very nearly blanket the globe's land areas, excepting only the polar regions. Nearly 1,500 different species have developed, each finely attuned to a different combination of terrain, weather and food. The result is that each region has huge numbers of just 2 or 3 different crickets.

The two common crickets in our region are often mistaken as adults and young of the same animal. In reality, the large black field cricket and small brown ground cricket are different species, which share a similar life history, but different song - it's the field cricket which is the loud, familiar songster.

The singing which we hear now, a critical phase in crickets' life cycle, is made only by the males. Now moulting into adulthood in droves, they're

equipped with large wings, which they don't use for flight, but rather for song. Each wing is equipped with several key parts. A hard "bony" scraper is located near the base of the wing's trailing edge. A long curved ridge, equipped with many cross ridges, resembling a file, curves across the wing. By precisely rubbing its wings together, the cricket drags the scrape across the file, somewhat like a fingernail dragged across a comb. The sound is then amplified by a tightly stretched area of the wing's membrane which acts like a drum skin.

The resulting serenade is essential - not only in announcing the availability to would-be mates. It also allows females to select the loudest (and doubtless healthiest and strongest) males using white-dot ears on the elbows of their front legs.

Each female will soon be laying dozens of eggs. Singly, they will be inserted into the ground using her characteristic "ovipositor" - that 1/2" long "tail pipe" which she carries behind her.

While a few adults may overwinter in sheltered locales, most die with hard frost. But the eggs, specially adapted, will survive, to hatch about late April or early May, as the ground begins to warm.

The young will emerge not as caterpillars, like most familiar insects, but as nymphs - miniature versions of the adult, but with important differences.

The nymphs will immediately begin feeding.

HALIBURTON WAR MEMORIAL.

Pic of the Past

The Haliburton War Memorial located at the Cenotaph on Haliburton's main street highlights this week's pick of the past. This photo was taken

in 1919, the same year that the War Memorial was dedicated. At that time the list of men from Haliburton County who lost their lives in the first world war, 1914 - 1918 was placed on the war memorial. A special service was held here when Lord Willingdon, who was then Governor General of Canada, visited Haliburton in 1930. He arrived by special train and was in a parade which was led by the Haliburton Citizens Band.

Paper should promote area resorts

Letters

- post war cars approved by the Milestone Society of America.

Cars less than 25 years of age have no official standing at car shows, but are accepted and admired.

Cars 25 years or older may obtain an historical license and insurance if not used as regular transportation.

Harvey Frid,
Member of the Antique and
Classic Car Club of Canada,
Belleville, Ontario

To the Editor:

We have been visiting the Haliburton area to see friends and relatives for just over twenty years, yet have noticed very few write-ups in the Echo describing resorts in the area. Because of

this, we were quite amazed at the rather over-large article (July 31, 1985) concerning the Domain de Killien lodge. We feel that if you are willing to exceed the normal space allotted to such articles by so much, just for one particular lodge, then, in all fairness, such space must be reserved for all.

This letter is prompted by our recent visit to Lochaven Inn on Maple Lake. The transformation of this resort, from almost nothing to a warm, friendly and comfortable lodge, surely demands (yea, deserves), investigation and an honest article. We visited Lochaven in mid-August and were so much impressed by the owners' hospitality that we returned after Labour Day. Our second visit, even warmer than the first, cemented the decision to write this letter.

We sincerely hope your editorial staff will now be put into action.

Thank you.

Keith and Linda Knight,
Cambridge, Ontario

Captains of this year's Senior Redmen football team are, clockwise from lower left: Jeff Bain, Trevor Powers, Paul Allore, Peter Allore.

Redmen gear up for new season, get first test at home this Friday

Haliburton high school's Redmen football teams have been slogging through rain and mud in high spirits for the past week as they gear up for season opening games this Friday at home against Fenelon Falls.

Coaches Gary Brohman and Bob Colliver have been leading the teams through their paces since classes began last Tuesday, and while it is too early to make a prediction about final standings, the Redmen look strong.

The senior club will be anchored by 15 veteran players, including captains Paul Allore at slotback and line-backer, Peter Allore at slotback and middle guard, Jeff Bain at fullback and line-backer, and Trevor Powers at quarterback and safety.

Other returnees to the senior club include Jeff Bull, Craig Burk, Alex Little, Rob Mifflin, Wayne Rivers, Terry Sicard, Gary Vanderstarren, Daryl Ward, Sean Allore, Greg Pearson and Mike MacNaull.

Adding to the senior roster are 11 players who have moved up this year from the ranks of last year's Junior team, including Kevin Barnhart, Andrew Burk, Ian Cooper, Ken Kreller, Rob Pearce, Jeff Popple, Sandy Sutherland, Jim Stamp, Sean Whitefield, Gord Wood and Tom McLeod.

Seven new players are also vying for spots in the starting lineup - Kevin Barry, Mike Cameron, Scooter Burgess, Tran LaRue, Dave McKay, Steve Hunter and Jeff Hancock.

The team will be led by veteran quarterback Trevor Powers, backed up by Tom McLeod. The backfield looks like a strong one this year,

with Jeff Bain, Andrew Burk and Mike MacNaull expected to grind out good yardage on the ground.

Passing should also be a strong point with this year's senior Redmen, as Powers and McLeod team up with receivers Paul and Peter Allore, Gary Vanderstarren and Ian Cooper.

The offensive line will be anchored by Sean Allore and Craig Burk at guards, Rob Mifflin and Sean Whitfield at the tackle spots, and Sandy Sutherland at centre.

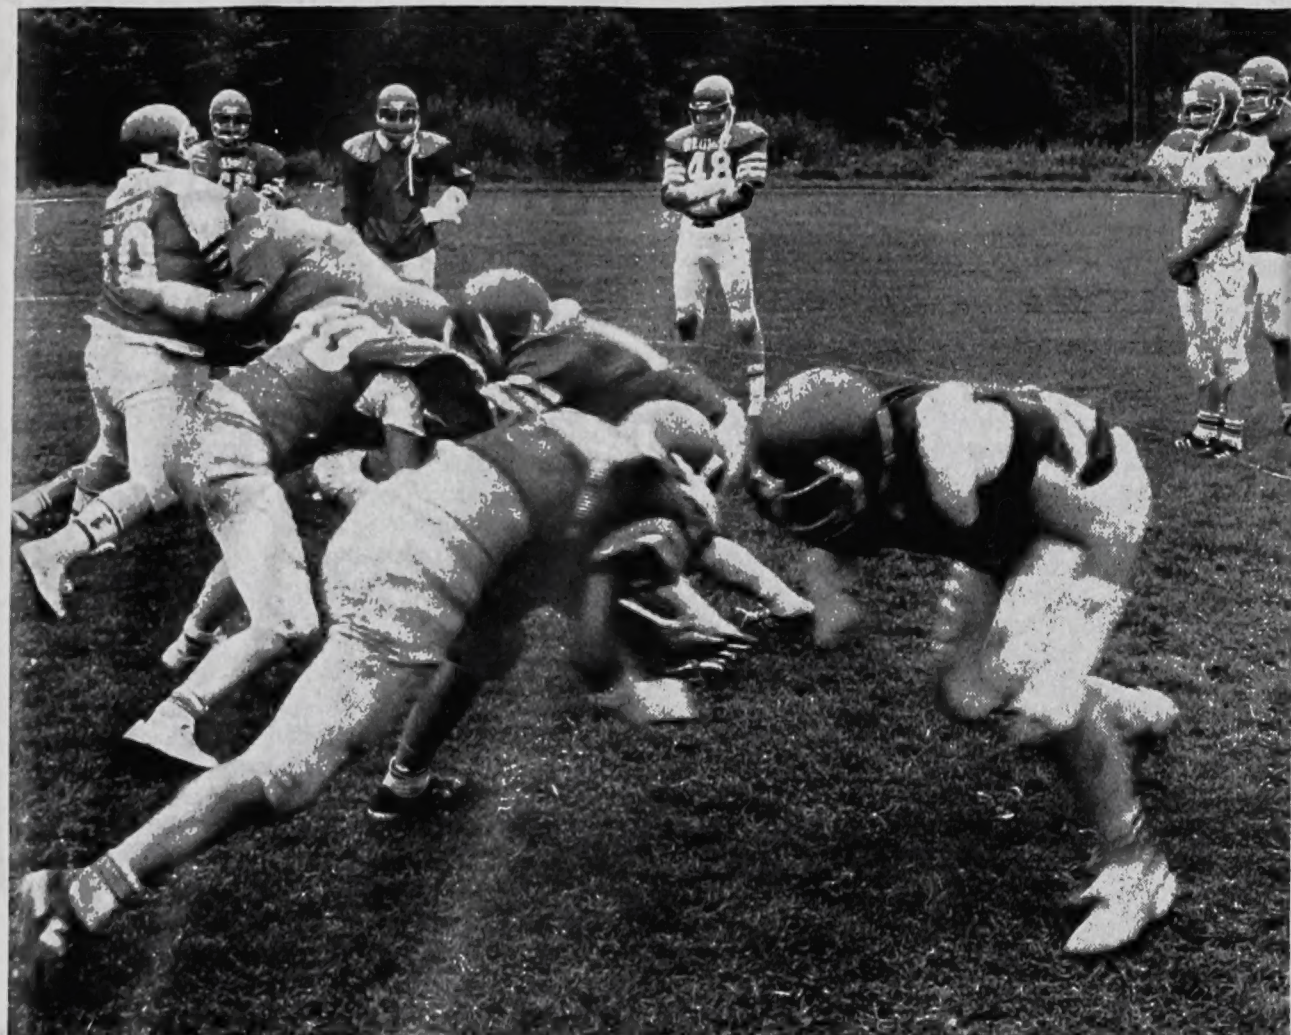

The defensive squad will

include Terry Sicard and Alex Little at the end spots, Daryl Ward and Rob Mifflin at tackles, Kevin Barnhart and Jeff Popple at the line-backer spots, and Tom McLeod, Gord Wood and Greg Pearson in the backfield.

Coach Brohman notes that while this year's senior squad is physically smaller than in past seasons, practices have shown that "we have a great attitude and desire, which should make up for our size".

Please turn to Page 7

Veteran players bolster teams

The Junior Redmen are going through their paces this week under the watchful eye of coaches Gary Brohman and Bob Colliver, in preparation for their

first test of the season this Friday at home against Fenelon Falls. The Junior game gets underway at 4 p.m., following the senior game at 2 p.m.

Win ends soccer season

By JIM MILNE

The Dixie Lee soccer team finished their season in the Muskoka District Soccer Association as they began it, with a win. Huntsville needed this win to clinch first place but they fell 2 - 1 to the Haliburton County team.

Dixie Lee have reinforced their reputation as Huntsville's bugbear since they first defeated Huntsville in a quarter final game two years ago.

The future looks bright also for the high school seniors as they aim to win in their region for the third year in a row. Dixie Lee used eight high school players to replace others who have returned to college. Darryl Goodall, the goalie is interested at the high school senior level of competition. He looked like he belonged in the Muskoka League playing against a team that won the league playoff cup two weeks ago.

Dixie Lee again used four fullbacks including two of the fast young players. Later in the game they assigned an additional forward to come back and mark exclusively Huntsville's playmaker. This foiled their comeback effort.

Dixie Lee scored first. Midway through the half Lennie Johnston converted Hans Walter's low cross with a diving tackle which put the ball in near the far post. Later Goodall preserved the lead by saving a penalty shot.

In the second half Huntsville tied the score when their skillful striker number 7 eluded the marking of two defenders to put a low shot in on the goalie's left. Finally Jeff Barry pressured the Huntsville goalie to make a disastrous mistake. Coming beyond the penalty box to clear the ball with his foot he hit his own defender close by with the ball. It rebounded directly into his net.

The Dixie Lee team wish the high school seniors and juniors well in their season opener Wednesday, September 11 in Haliburton at 2:30 p.m. There will also be an exhibition game against the seniors on Sunday, September 15 in Haliburton at 2:00 p.m. The aims of the Terry Fox Run that same day will be promoted, so a collection will be taken at the game for the cancer fund.

Captains of the Junior Redmen football team at Haliburton high school this year are, from left: Derek Little, Craig Crowe, and Brad Archer. The Juniors

will be helped by a number of returning veterans as well as by a promising group of first time players.

Redmen mix new players with starters

from page 6

The Junior Redmen are also looking strong this year, with 12 players returning and 19 new players trying out for starting positions.

The Juniors will be anchored by third year players Brad Archer at guard and linebacker, Derek Little at centre and tackle, and Craig Crowe at Fullback and middle guard.

Other returning veterans

include Blake Callard, Jaro Cooper, Gene Cowen, Ron Perrin, Allan Rydman, Glen Scheffee, Dwayne Cooper, Matthew Creelman and Drew Mitchell.

The 19 new players joining the junior squad this season include Jamie Bruce, Paul Robinson, Rob Waller, Steve Stoughton, Marty Andrews, Jason Rowden, Darren Whittaker, Ted Paish, Rob McKnight, Travis Powers, Scott Russell, Jeff Francis,

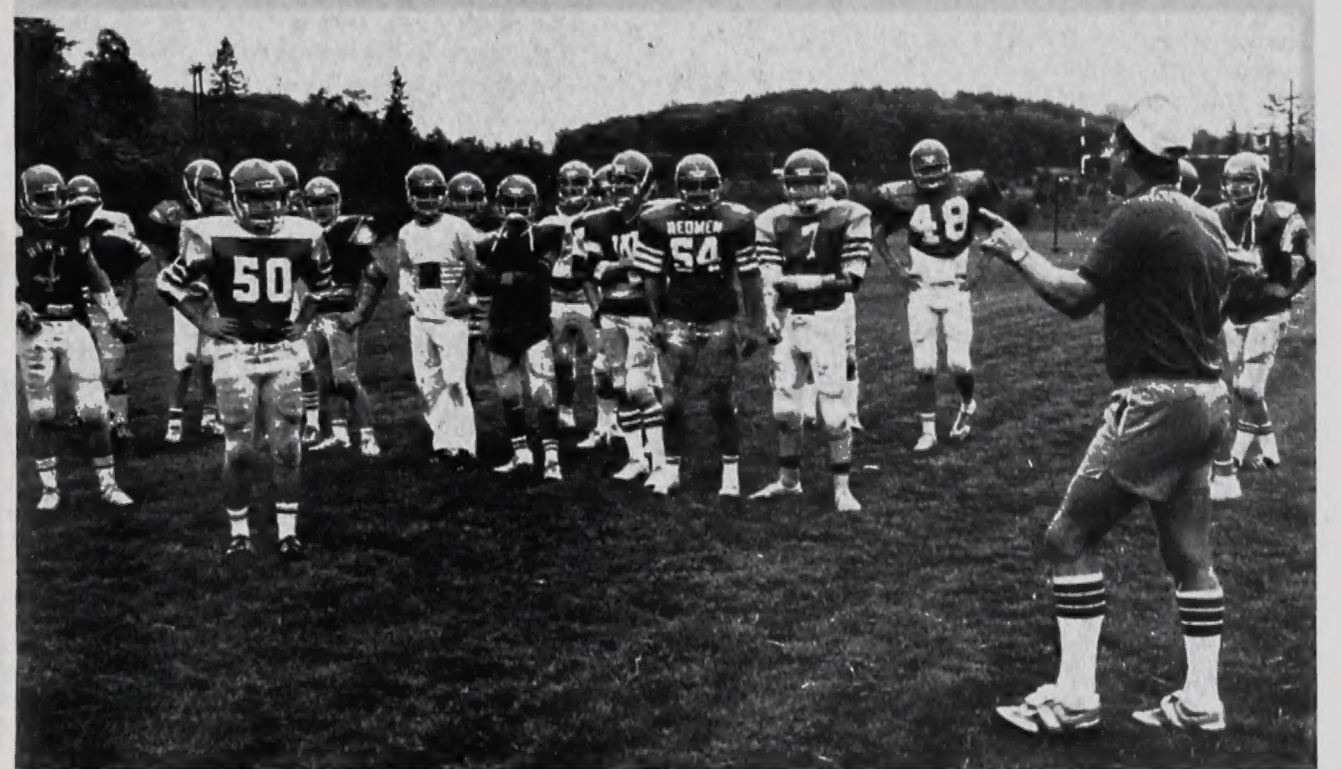

Darrin Byers, Derek Beachli, Jamie Hancock, Mark Robinson, Mike Wray and Darryl Hudson.

Quarterbacking duties for the Junior Redmen will be handled by new players Ted Paish and Scott Russell.

Paish and Scott Russell. Other first year juniors showing good football skills, according to coach Brohman, include Jamie Bruce, Darrin Whittaker and Marty

Andrews. Returning veterans Archer, Little, Rydman and Perrin on the offensive and defensive lines, along with Crowe and Mitchell, "are having a super camp" and leading the old and new Juniors through their paces according to coach Brohman.

Game time this Friday afternoon at HHSS is 2 p.m. for the seniors and 4 p.m. for the Juniors.

Frost centre plans hunters day

The Leslie M. Frost Natural Resources Centre (MNR) and the Ontario Federation of Anglers and Hunt-

ers plan to hold a two-day big game hunters' field day at the Frost Centre south of Dorset on September 28 and

29. The main attraction to big game hunters is the opportunity to use the running moose target to assess and practice their marksmanship. In addition, there will be continuous showings of the film, "Of Moose and Men", a new MNR film which teaches moose sex and age identification. The Hunter Safety Training Trail at the Frost Centre will be open for guided walks and an excellent hunter safety film, "Firearms Safety and the Hunter", will also be shown.

Time allows for approximately 50 shooters each day. Those wishing to shoot should phone the L. M. Frost Natural Resources Centre (705-766-2451) during regular office hours prior to September 20 and reserve a shooting time.

Each day's events will begin at 9:30 a.m. and close at 4:30 p.m. Participants are asked to bring their own firearms and ammunition. Meals are available in the

local area.

The Leslie M. Frost Natural Resources Centre is located 14 km. south of Dorset on Hwy. 35.

Lakes steady

On September 3, the stored water on Haliburton area lakes stood at 61.2% which was again above the 10-year average by about 1.5%. The flow being discharged is still only a little more than minimum from these lakes while there has been no pressing demand due to heavy rains in the Kawartha area.

These rains, often heavier in the area south of the Haliburton Highlands, has resulted in overfilled conditions on the Kawartha Lakes. The outflow has been increased considerably to reduce the surplus which could threaten shoreline areas, the safety of the boaters and construction activities. On Saturday, September 7, sections of the waterway had to be closed due to the hazardous currents. Large flows now should reduce the risks for the present and in future by getting us back to an underfilled situation within a couple of weeks. Heavy, repeated rains could make this unattainable, however.

WITH AN AMAZING
LENNOX PULSE FURNACE

(G14Q3 series) Offer ends December 31, 1985

DO IT ALL WITH PROPANE.
DO IT ALL WITH SUPERIOR.

Superior Propane has been a pioneer and innovator in the propane industry for over 33 years. Our experience, expertise and dependable service has earned us a reputation as one of North America's leading Propane companies. Our army of trained specialists are there to help you decide on which system best suits your needs. From a complete no-obligation estimate and breakdown, to our commitment to provide any follow-up service if required. Join the winning side. Come with Superior Propane today.

WIN A FAMILY VACATION TO DISNEYWORLD

What a great way to win the Cold War! Just by coming into any Superior Propane branch you can fill out a ballot that makes you eligible to win one of three expense-paid trips to Disneyworld, Florida. Included is return airfare for four to Disneyworld, one week's accommodation, \$500 spending money and all the warm weather you can handle. Full details and entry forms at all Superior Propane branches. No purchase necessary.

Offer ends December 31, 1985

LENNOX. RELIABLE
PERFORMANCE,
LOW COST
INSTALLATION

You can't buy a more efficient or dependable propane furnace. The Lennox Pulse Furnace is the result of years of extensive field testing and research. Compare efficiency ratings. At 96% to 98% fuel efficient, the Lennox Pulse propane-fired furnace is a lasting investment. We'll show you how you can win the Cold War with Lennox.

One-room school houses live in memories

The schools may have changed but children always stay the same

By MARTHA PERKINS
Staff Reporter

September is the start of all things new, especially for children.

Summer is spent; the idle days are no longer a treat but a chore as parents and youngsters alike run out of fresh ideas of what to do.

Complete with a new wardrobe and full of anticipation, the children find their way back to school to renew old friendships and check out the new teacher.

Year after year, the sights and sounds of children absorbing the new world around them is a familiar one. The boys will continue to tease the girls and the girls will continue to giggle over the boys.

Times have changed but children haven't. Whether a bright orange school bus picks them up at the end of the driveway or a cutter makes its way through the snow piles, children will always make that daily pilgrimage to the hallowed institutions of our educational system.

'The rural school was the community headquarters...It was more of a family affair.'

But we did seem to lose something when the little one-room school houses were closed back in the '60s. Never far away, the school was the one place everyone could go to for the Friday evening social or Sunday church gatherings. The teacher was an integral part of the community, at times a social worker, nurse and fireman.

"Education has taken so many strides but the rural school was the community headquarters," says Greta Kellett, who started her teaching days

back in 1929. "It was more of a family affair."

At the young age of 18, this Haliburton native found her first teaching job at the Gooderham Consolidated School with the heavy responsibility of the Grades 3, 4, 5 and 6 classes. Her salary wasn't much, but then again, the Great Depression had begun.

"I taught for \$500 a year and was glad to get it. You were very glad to get a job...Nobody else was making that much money either."

And what a job it was. With only a year of training behind her she had to tackle the organizational hassles of teaching four grades and the awesome responsibility of being in control of all those young lives.

After trudging across open fields and wooded trails, the pupils and teacher did not have the warm comfort of the school to greet them at the end of their journey. Instead, the first half hour would be spent huddling around the wood stove, waiting for the heat of the fire to thaw their chilled bones.

"Seat work was a problem because in the thirties we had few notebooks and no spirit copiers. Work was either written on the blackboard or on paper using carbon copies. One of the big problems was to keep the junior grades gainfully employed while teaching the senior classes."

Unlike today though, when youngsters are separated according to grade, the teacher back then got a lot of help from her older students.

Quite often a Grade 8 student would have a younger brother and sister in the same classroom with them. Since there were not a lot of kids to play with in the first place, the younger children were asked to join in all the activities.

The biggest event of the year was the Christmas concert. School boards were hampered by restrictive budgets that would just allow for the basics and the Christmas concert soon became one of the primary fund-raising events for supplies as well as being an annual event in which

Take away the old clothing, change the hairstyles, and this group from Dysart S.S. #4 could easily pass for children in the 1980's. This picture of Grace

Kellett's class was taken in the late 1940's, a time when the government needed all the teachers it could get.

the whole community participated.

The month leading up to the big event was spent busily preparing skits and plays, writing speeches, finding the best Christmas tree to decorate and dressing the school up in all its holiday finery.

"Often the mothers would help with the decorations and the farmers would come in their sleighs to help with heavy loads," Greta Kellett recalls.

With all these fond memories, she does not try to distinguish one from the other or say which ones are her best.

"I wouldn't want to separate any of my fondest memories. Little things the children did for you were often very moving."

But while Greta Kellett can call her teaching years "the good old days", she is not wrapped up in the past and says with confidence that the school system today is much better than what it used to be.

"It's a different life the children live now. They have a broader education today and they know more about the world and the country. Oh yes, it's much better now. There's no comparison."

Greta Kellett's feelings are shared by Celia Brown. The two women started at the same time, share many of the same memories, kindly reflect on the days of the one-room school house yet both welcome the future changes.

Celia Brown's memories are kept in a trustworthy old photograph album, the corners dog-eared from years of flipping through the pages.

Under one picture of pupils gathered beside their communal school house is the caption "Suspense and Smiles".

"You'd have to know the children," she explains with a chuckle. "Some of them were wondering what was going to happen and some of them were just happy-go-lucky."

Suspense and smiles could also describe her feelings those first few weeks of teaching. Born in Bobcaygeon, she had just finished her year of teacher training in Peterborough and received notice she was hired to teach all the grades in Minden S.S. #1.

She boarded with a family just a few fields away from the school, and an old trail through the sugar bush made the walk a little easier.

"I wasn't homesick because the people were so good to me," she says. "The children seemed like brothers and sisters really."

"The first winter the school wasn't well insulated so I wore ski pants made of melton cloth

and the kids used to sit around the stove if it was cold."

One of her favourite memories is of a young girl who had to get a tooth pulled. The only dentist came up from Lindsay so they had to sit outside the school to catch him on his way back home from Haliburton.

"The little girl sat out on the rock in front of the school and he pulled out her tooth," she remembers. On another day they saw a bear wander by and "if I had been a city girl I would have been alarmed maybe."

Like Grace Kellett, she wasn't making much money but she enjoyed what she was doing. During the Depression, salaries took a dive and married teachers were not welcome unless their husbands couldn't work.

Then came the war and a shortage of teachers. Brown had not been teaching for four years when "the inspector came looking for all the spare teachers and pushed me to go back." She continued teaching until 1971.

Perhaps the people in the Lochlin area will remember her the most. For twenty years she saw children come and go and eventually ended up teaching the children of her former students.

Please turn to Page 9

An album full of old photographs keeps Celia Brown's memories of bygone days alive. Well-known and respected in the Lochlin area, this retired teacher began her career in a one-room school house in Minden.

"I wasn't homesick because the people were so good to me. The children seemed like brothers and sisters to me really."

Skiing to school wasn't unheard of in the 1930's but Celia Brown believes she didn't do it too often in a skirt.

David Bathe lines up a shot with his compound hunting bow. He created the field archery range with the help of his wife Cheryl and friends Bill and Pat Marks this spring. It will be used frequently by

members of the Ontario Bow Hunters Association, but non-hunters are welcome to visit the facilities as well.

Range gives bow hunters chance to hone their aim

The newest sports facility in Haliburton County hasn't attracted much public attention yet, but the people who established it hope that situation will change.

And in fact there are already indications that the Haliburton Field Archery Range Cheryl and David Bathe built this spring on 50 of the 400 acres they own near Gelert, is attracting not only avid bow hunters, but curious tourists as well.

David, a geologist who spends his winters on oil rigs in northern Alberta and the rest of the year in Haliburton County, says he first got involved with archery about two and half years ago through a lifelong friend, Bill Marks, who operates an archery shop in Bowmanville. This spring, the two men decided to establish an outdoor target shooting range on part of the Bathe's wooded acreage, with a view to holding tournaments and other events for members of the Ontario Bow Hunters Association. They carved out a winding path through the bush and set up 26 shooting lanes over a variety of terrain. Earlier this summer, 30 members of the Bow Hunters Association tested the facility at a tournament, and were pleased with what they found.

"We're starting to get an awful lot of response now," David said in an interview at the range last Saturday. "It's very encouraging".

"Our main interest is to promote archery - not only bow hunting but also target archery".

While the range is designed primarily to hone the skills of archers who use their bows for hunting, it may also appeal to people who prefer to test their prowess only against paper targets.

At each of the shooting lanes which radiate off at right angles to the trail, an animal target has been set up, with areas marked off and points awarded according to the portion of the animal in which the arrow lodges. Since the aim of any conscientious bow hunter is to make a clean, swift kill, the highest points are awarded for a shot to the heart/lung portion of the target.

The average distance from the shooter, who must place one foot against a coloured peg, and the target, is 30 yards, but some targets are closer, depending on the ruggedness of the terrain and the challenges presented by intervening leaves, twigs and branches.

In a competitive round, archers go from target to target in groups of four. Two complete circuits round out a competitive event, and the winner is determined on the basis of total points.

The key to shooting accurately on the course is to be able to judge distance David Bathe says, so that an arrow's trajectory can be controlled. It simulates the conditions a bow hunter would encounter if he were after deer or other game in area woodlands.

So far, the range is being used regularly by about eight local bow hunting enthusiasts, but tournaments are also planned, up to three a year starting in 1986.

As well, several traditional round targets have been set up in an open field so those who want to try archery for the first time, or who don't want to follow the field range course, may also shoot.

David says he doesn't expect that the field range will ever be commercially successful. He looks on it as "a paying hobby," he says. But in future, he hopes more local people and tourists will drop by to have a look at the range and perhaps try their hand at archery. It may not ever match the popularity of golf as a way to spend a quiet afternoon, but for some people, archery has just as much appeal.

This shooting lane, with the target in the upper centre, is typical of the challenge facing archers at the Haliburton Field Archery range near Gelert.

Remembering olden days

from page 8

"I could remember what the parents were like and I expected the children to be the same," she says ruefully.

Her advice to teachers now is "Don't take yourself too seriously. What's a problem the first day will be solved in a week or two."

Teaching may be harder now, she says, because "I think the discipline is more difficult now than it was then. The teacher doesn't have the same authority over the child."

Celia Brown and Greta Kellett are just two of the dozens of teachers in the Haliburton area. In a pamphlet published by the Federation of Women Teachers of Ontario in 1978, the tales of winter hardships, dreaded visits from inspectors, and the warm place the teacher held in the hearts of the community are told again and again with joy and happiness.

All of them describe the closeness between teacher and student, teacher and community.

Some only stayed a few years before moving on; others fell in love with the area and refused to leave.

One can just imagine those brave young souls, stepping down off the train and quite often having no one there to greet them. Communications were unreliable at best and many teachers arrived when least expected so it was up to the individual to find a warm place to sleep.

Soon they were accepted by the community as one of them and were kept so busy visiting students' homes and attending social gatherings they had little time to pine for the brighter lights of the big city.

For the students, going to school is just the normal thing to do. A nice teacher made a lot of difference but there were lots of things to do and many friends to make. Whether they are in a one-room school house or a huge multi-leveled school, the things they learn are the same and always will be.

Poster contest to begin

Fair parade was the best one ever

Minden News

by Maizie Austin

I didn't have enough news last week for the paper and what I did get came in too late so I'll mention what I did get first.

Harvey McIntosh attended the Carden Fair recently and his Belgian came in second in the three-year old class, first in the heavy draft and first for the best team on the grounds, first for the single draft horse hitch and second and third for best horse on the line.

The Minden Minor Hockey registration will be held one night only, Thursday, September 12 from 6 p.m. to 9 p.m. upstairs in the municipal building. For more information call 286-2707.

The Thursday afternoon museum card party winners were the following: most lone hands - Lil Porter and the other winners were Flo Dollo, Mary McKelvey and Jack Weekes.

I was talking to Pat Ackersblade in Red Deer, Alberta and she would like to say 'Hi' to all her family and friends in Ontario and she misses each and everyone of you.

If you have any news for me to include in my column please call 286-3607 before 10 a.m. on the Monday morning so your news will appear in the Wednesday paper. Thank you.

Mary McDuff had her family visit her recently - Don, Adrienne, Susan and Sharon of Oshawa, Reg, Brenda, Heather and Andrew of Oshawa, Doug, Pat and Michele of New Market. Mary also visited with her children in Oshawa through the week.

The annual open canoe white water championship will be held at the Minden Wild Water Preserve. They will be doing practice runs on Saturday, September 14 and the races will be held on

Sunday, September 15 from 10 a.m. to 4:30 p.m.

Household Hint: Lipstick - rub the spot with vaseline or lard, then sponge with cleaning fluid and launder.

Robbie and David Ackersblade attended a birthday party in honor of Michael Hughes last weekend.

Kitty Wells was a big hit with the country and western fans in the area last week.

Sincere sympathy to the family and friends of Allen Brown who lost his life suddenly last week.

There will be movies for the children at the Library/Cultural Centre on Friday, September 13 from 7:15 p.m. to 8:15 p.m. with free admission.

The last of this season's museum card parties was held in the common room on September 5. The door prize of a Provincial ticket went to Flo Dollo, the travelling lone hands going to Gladly Wruth, travelling euche, Eleanor Pyc, other prizes went to Esther Lee, Flo Dollo, Bob Mitchell and Jack Weekes. Convener Jean Lacy reported that more than \$240 was taken in for the museum fund. She would like to thank everyone who helped make this possible. Everyone enjoyed the social half hour of tea, coffee and snacks.

There was a corn roast at South Lake Tent and Trailer Park on Saturday, September 7 with games for everyone. Corn and hot dogs were served at the big bonfire and a good time was had by all. The next Minden Women's Institute meeting will be held at the Library/Cultural Centre on Wednesday, September 18 at 2 p.m. Don't forget the roll call of a hat made from kitchen items or there will be a penalty. Newcomers are welcome to come and join us.

It is not the losses in life, but how soon you forget your

losses, that will matter most.

Mary McDuff has had a lot of visitors over the past couple of weeks - Gail, Brenda, Michele, Joan, Ann, Karen and Cindy, all of Bobcaygeon and Lindsay; Laura Coppins of Peterborough; Debbie, Wendy Shaw and Bradley of Lindsay; Susan, Johnny, Winnifred and Kenny Johnson of Lindsay; Gail, Gerald and Robert McKnight of Haliburton; Harry Brohm of Haliburton; Reta Sheir of Lindsay; Don and Marj Sisson of West Guilford; Betty and Connie Weber of Kitchener; Karen Morgan of Kitchener; Cecil and Cora Sipes of Kitchener; Lee Vardy and family of Oshawa; Tom, Bernice, Tommy and Philip Bannister of Janetville; Judy Jones, Andrew Smith, Crystal Johnston and Carolyn Hopkins of Paris, Ontario and Craig Sophia and Jackeline Andrews. Mary has entertained a lot of her friends through the summer months. Mary will be moving to her new home in Peterborough and will be missed by all who knew her and she would like to say she has left a donation to Minden Lake near the dam. Her family of ducks got away and she was unable to catch them. She is hoping everyone will enjoy them and take good care of them and she would like to thank everyone who fed them when they dropped in on their shoreline.

Mary McDuff's daughter, Carolyn Richardson held an all-day family reunion for the McDuff family recently and an evening party for all of her friends who live on her

street. Last year's event was large but this year's was even larger. They had a live band from Toronto and everyone enjoyed themselves thoroughly. Carolyn deserves a lot of credit for putting on such an event.

Mary says she is going to miss me but I'm afraid I'll be the one missing her. She has helped me with news for my column.

Recipe for this week: Uncooked Chili Sauce - 18 large tomatoes, 7 large onions, 1 bunch celery, 6 cups white sugar, 2 green peppers, 2 sweet red peppers, 1 cup white vinegar and 1 ounce mustard seed. Peel tomatoes and cut up vegetables. Mix 1/2 cup pickling salt. Let stand overnight. Let drain for 2 or 3 hours. Add vinegar, sugar, mustard seed and chopped peppers. Let sit all day. Stir several times. Seal. There will be a 'Kids Poster Contest'. You are to draw a picture of what the library means to you. It is open to anyone from grade one to grade eight. The poster must be 38.1 cm. by 27.9 cm. in size. Be sure to put your name, grade, age and the address of your local library on the back of your poster and give it to your local librarian no later than Friday, September 13. The prizes are three books for each group as 1st, 2nd and 3rd place winners. This is sponsored by the Haliburton County Library.

That's all for this week. Drive with extra care and watch for the children boarding and unboarding the school buses. I hope to see you all next week.

Ag. Report

The Pasture Management Program is being sponsored by the Victoria County Community Pasture Committee.

We have been advised by our animal industry branch staff that two dairy herds in Eastern Ontario have experienced severe problems this year due to Vitamin D3 toxicosis.

In both cases, large doses of injectable Vitamin D3 were administered prior to calving in an attempt to reduce milk fever.

Kinmount Korner

by Millie Moss

And they came - from all walks of life they came, to view the annual Kinmount parade and to attend the biggest little fair in the country. The parade this year, in my humble opinion, was the best one yet. The police had an entry of motorcycle riders who performed some fancy maneuvers at the intersection of 503 and 121 in their smart black uniforms and shiny helmets. The police pipe band were just beautiful, the horses, ponies, clowns, floats, the other three bands very smart and making beautiful music. There were fire engines, ambulances with sirens blaring, individuals who entered the parade in various costumes and the newly elected Fair Queen, Donna Potter, and her princess. Navy League Sea Cadets and many of the Legion members marched from other areas besides our own. The Shriners are faithful to our big day each year. If I've forgotten anyone, forgive me. You were all beautiful and made it a great day.

There were crowds of people around town and motor vehicles everywhere. See you again next year folks. Congratulations to all the entrants who took prizes in the shows.

Joan, Harold and Mike Mills of Pickering were weekend guests of Bill and Win Wilson.

Welcome home to Helen Graham, Mary and John Pyke, all of Norland, who have spent the past couple of weeks visiting Marie and Bill Card and family in Jackson's Point and Audrey and Wilf Belanger and family in Rexdale. They also visited the

were leaving they would be back next weekend and wanted more of those delicious cakes. She said she thought I would like to know and that she had another pan in the oven then for their own dinner. It's heartening to know that you hit the jackpot so to speak, sometimes at least.

There are karate lessons going on at the Onondaga Camp for a week and one of the councillors who will be leaving for Switzerland by the time you read this, Danny Terryberry, won a toss of the coin with Mary Gillis so she will be taking him to lunch at the PineStone before he leaves for Europe. Bon voyage.

Pearl and Arnold Cowen and Pearl's mom visited at our house last Sunday for the first time in about four years.

Minden Minor Hockey Association registration will be held one night only, on Thursday, September 12 from 6 to 9 p.m., upstairs in the municipal building. For further information you may call 286-2707.

Andria Strachan and her friend Kathy Tanner called for Ryan at his grandparents

home (Joan and Ken Hyams) last Saturday. They had visited at the Kinmount Fair and reported they thought it better even than the Toronto Ex.

Flo and Al Jopling with their friends, enjoyed the Legion dance in Kinmount Saturday evening, August 31. I'm told the hall was packed and local talent in the form of one Jim Laver who joined in with the Anita Lister group from Lindsay, provided beautiful music.

On the Saturday of our fair weekend Al Jopling's mother who was attending the fair had the misfortune of losing a gold ring with a Roman's head on a coin. This ring had been purchased many years ago in England and needless to say the loss put a damper on an otherwise lovely weekend. If perchance you may have found this ring please call the loser's daughter-in-law, Flo Jopling at 488-2060. There is a reward being offered. I was told that a number of lost items had been found and turned in at the Fair Board, among them, a wallet which had been reclaimed by the thankful

Handyman loses finger

Wilberforce News

by Winnie Schofield

We recognize the fact that the Wilberforce Veneer Co. Provides an important function in the economy of the area but they really should do something about that mountain of sawdust that grows bigger daily. Earlier in the year trucks were used to cart away this accumulation of waste material but for some time now nothing has been removed. It is an eye sore and also a dangerous fire hazard. In the cities people pay a good price to purchase sawdust for their gardens. It is said to be very beneficial for sandy type soil. If all of our citizens took away a few loads of the stuff it would reduce the pile considerably. I don't suppose the company would pay you to take it but you would gain a benefit and enrich your soil at no cost.

Another complaint against the Veneer Co. is the emission of thick black smoke from the smoke stack at the plant. This was an issue in 1984. At that time a small adjustment to the boiler feeder system eliminated the problem. Let's have clear skies again fellows.

Phyllis Gallen, secretary of the Wilberforce Legion sends the following report. A resident of Wilberforce for eight years and a seasonal resident for approximately 25 years, the death of Harry Dingley, September 1, saddened his many friends in Wilberforce. A devoted Legion member, he accomplished many improvements at Branch 624 Wilberforce - serving as poppy chairman for several years, bar chairman, secretary and two years as president.

Under his guidance, the Legion blossomed and became a place of events, a club where members and friends could gather and enjoy comradeship. President Pat Gallen conducted a busload of comrades from Branch 624 and Bancroft to pay tribute at his funeral in Oshawa on Thursday, September 5. Zone Commander Ewart Wannamaker, Deputy Zone Commander Angus Ruppnow and their wives were in attendance from Bancroft. Angus is also president of the Bancroft branch.

Past Zone Commander Wally Smith of Peterborough and his wife attended with Wally ably conducting the Legion Services. An honour guard with Sgt. at Arms Al Tremblett, Comrades Reg Schofield and Harold Floden was formed.

District Zone Commander Paul Hycha of Oshawa and

Comrades of Branch 43 were also in attendance.

There were two new 34 cent stamps issued by the Post Office last week. One honours Canada's first farmer and apothecary, Louis Herbert, who settled in Nova Scotia in 1604. The stamp is attractive although the colour's a bit dull. The second stamp shows the Parliament Buildings on the occasion of the meeting of the inter-Parliamentary Union. This stamp is a very colourful blue. On September 14 a new stamp issue will commemorate the 75th anniversary of the Girl Guide movement.

Your Monmouth Library has been a busy place this summer, with 1046 books given out in July and 1242 during the month of August. Student Lisa Anderson helped out during the two hectic months. In July the library staff worked on their prize winning float inspired by the creative design and production of neighbour John Cross. In August a very successful puppet show was held at the library with 30 children in attendance. Good news for readers - in a couple of weeks a book exchange takes place.

Last week's column told of the Peterborough lady who lost a finger while chopping wood. It seems a similar incident took place, possibly the same day, when Alfred Harrison of Clement Lake Road, while putting wood through a table saw, lost a finger and did damage to other parts of his left hand. The quick thinking angel in this instance was his neighbour Virginia Rivers who rushed Mr. Harrison to the Haliburton hospital and then continued on to Peterborough for surgery. Alfred Harrison, who moved into this area last December, is a retired pensioner from the firm of Lever Bros. He has been making improvements to his home with his knowledge of carpentry and his hobby of handicrafts. He is in danger of losing his small finger but will continue on with his work at home. He certainly appreciated the immediate help that he received from Virginia Rivers. He mentioned that there was no guard on the saw he was using. These two accidents should alert us all to be careful when using sharp tools.

A handsome boy was born at the Bancroft Hospital on August 18, 1985 to Cindy and Myles Sanderson. Kenton Eugene Sanderson weighed 5 lb. 15 oz. He is the first

grandchild for proud grandparents Nadene and Ken Sanderson and for delighted grandmother Ann Smith of California. Congratulations to the family.

Monmouth Figure Skating Club is in need of volunteers for this year's activities. They need a president, vice president and a secretary. If you are interested in keeping the club going please contact Sandy Smith, Cathy Agnew or Lorraine Casey. All help will be appreciated.

A community farewell social evening was held at the Lloyd Watson Centre on Friday evening for Joyce and Bern Waterton. The room

was filled with neighbours and friends who had gathered to wish the couple good luck and success in the new life they have chosen. During their years in Wilberforce they have helped in many community affairs. Bern worked in the real estate business and Joyce operated a take-out food service. They became members of St. Margaret's Church and for the past few months Bern has helped with the services. The couple are moving to Toronto where Bern Waterton has been accepted for training in a two-year course with the Anglican Church Army. Many good wishes go with them.

Kinmount Korner

from page 12

owner, a watch and a gold chain.

Congratulations this week, to two gentlemen. One of them from over Kirkfield way was the lucky bingo jackpot winner of \$310 on the fifty-ninth number on Tuesday night at the Lions Kirkfield bingo and a first time ever jackpot winner of \$250 at the Coboconk Lions bingo on its final night for the season, Wednesday, September 4 was my other half, William George Moss, who is now telling me how to play bingo.

It certainly was nice to see Bob Wilson taking part in our Labour Day parade.

Let's hope by this time that Charlie Henderson has heard some good news concerning his son. Our thoughts and prayers are with you, Charlie.

In the news, more tornado damage at Robinson's Marina near Lindsay and at Snug Harbour on Sturgeon Lake. I made a comment last week

about not leaving the house without an umbrella and was told that a certain family were not leaving their house 'til the Ark was built.

To all you people who are ill, get well soon, to all of you who are hurting (and this wet weather doesn't help, does it?) hang in there, the rest of you stay well and happy, read the Echo and call me at 488-2353.

In closing this week I've been given the very sad news that on Friday evening, September 6, one of Kinmount's respected citizens, Alan Brown, was drowned during the course of his duties. Our very sincere sympathy goes out to Joyce and all Alan's family and his very many friends, neighbours and co-workers. Alan was a man everyone respected and he will be sorely missed. As at this writing I have no notice of funeral arrangements but our thoughts are with you Joyce and your girls at this sad time.

Fond farewell bid to co-ordinator

Gooderham News

by Mary Hadley

A total of 14 bridge players met at the Gooderham school last Tuesday. After five rounds the score tally showed the player in first place to be Fred Vanderland with his wife, Evelyn, having a slightly smaller total, in second place.

Christian Madill has returned to her home after a lengthy stay in hospital at Peterborough. We hope her condition will continue to improve.

Norma Fotheringham has returned to her home after a short visit in Toronto with her sisters and friends.

With some other Gooderham residents, I enjoyed Thursday afternoon movies throughout the summer at the Drop-in Centre in Haliburton. This entertainment, now concluded, was arranged by Katharine McMahon, co-ordinator of the centre. A special "thank you" is due to Black's Hardware, who supplied a T.V. each week and to Halco Audio Visual for supplying the V.C.R. and tapes. We appreciated their generosity. We would also like to thank Katharine who transported them each time.

It is regrettable that lack of funds make it impossible for Katharine to continue but we would like to express thanks for her enthusiastic approach to a job well done.

Doug and Donna Simmons of Nipigon with their two sons spent last week visiting Donna's parents, Priscilla

and Clifford Mintz, as well as other relatives and friends.

Last week's visitors with Tommy and Vivian Dovell were Mary Maxwell of Mar-mora, accompanied by her son, Gerry and her sister, "Teeny" of Hawaii.

Our community was shocked and saddened last Thursday evening upon hearing that Ken Webster had died in Haliburton hospital in his 64th year. Although Ken had not been enjoying good health for the past few years, he seemed as usual just hours before his death.

He was well and favourably known in our community where he worked with his bulldozer and other machinery on roads and other developments until his health problems made this work impossible.

Left to mourn his loss are: his wife, Verna; his son, Gary; a daughter, Betty; two sisters, Dorothy and June; and a brother, Ted.

Friends called at Barr's Funeral Home on Friday

evening to pay their respects.

Funeral services were held Saturday afternoon in the United Church with the minister, Maurice Bradley, officiating. He spoke of many who told him of acts of kindness shown them by Ken.

The large number attending attested to the esteem and affection for a good friend. Flower bearers were: Lorne Madill, Gary Mintz, Albert Cary and Grenville Graham.

Pall bearers were: Ed Taylor, Gordon Taylor, Dallyn Pickens, Elgin MacDuff, Bradley MacDuff and Doug Simmons.

interment took place in the Giamorgan Cemetery.

The community extends sincere sympathy to the sorrowing family.

A bridal shower in the community centre on Saturday evening lent a touch of gaiety to our community. Friends gathered to honor Cindy Reil whose marriage to Robert Billings will take place soon.

A few games, creating laughter, were played before Cindy and her assistants opened the many useful gifts. After expressing her appreciation to the guests, all partook of a lunch.

Letters to the Editor:

To the Editor:

Our Antique and Classic car and truck show held at the Museum on September 1, 1985, was a great success. On behalf of the Board of Management of the Haliburton Highlands Museum, I would like to express our appreciation to everyone who participated.

Throughout the afternoon we had a large number of visitors who appeared to thoroughly enjoy themselves. We plan another show next year and hope to have more vehicles on display.

Again, our thanks to all who participated and worked to make the event a success.

Sincerely,
Ross D. Carver,
Chairman and Business
Administrator

Legion members attend meeting

By GERALD IRISH

A large number of interested Legion members and guests attended the September general meeting. Much was accomplished. Six new members were initiated into Branch 129. As a result of this meeting you can expect to see redecorating and renovations continued in the Club Room.

Our visitors from England are here. Peter and Wenda Wilson arrived in Canada on Wednesday, September 4. We were pleased to see them, as guests, at our general meeting. Peter and Wenda will be visiting Ottawa, Niagara Falls and Midland during their visit with us. On Friday the 13th, the Wednesday Night Dart Group will be hosting a "Meet Our English Visitors" wine and cheese party. Come out on Friday from 7 p.m. to 8 p.m. Enjoy the wine and cheese and meet Peter and Wenda. Joey Nicholson will be providing entertainment and music for dancing on this night. Saturday the 14th will see the very popular Earl Wilfong Trio entertaining in the club room from 9 p.m. to 1 a.m.

Congratulations to 2nd Lieutenant Michael Wright who received his commission in June from the Royal Military College in Kingston. He is pursuing his military career at Portage La Prairie and Moose Jaw. Mike is the son of Don and Mary Wright of Lochlin. Comrade president Joan sent a message of congratulations to Michael on behalf of Branch 129.

Did you remember the

Legion Cadets meeting? Mr. Krisjansen, general manager of the Ontario Army Cadet League, will be the guest speaker and answer parents' and teens' questions about Cadets. This meeting will be this Thursday, September 12 at 7:30 p.m. in the Legion auditorium. We'll see you there.

Nine Branch 129 members attended various zone seminars in Coboconk on Wednesday evening, September 4. They took part in seminars on Poppy, Youth Education, Sports, Membership and Public Relations. All who attended the seminars gained in knowledge in each of these areas. The seminars were arranged by Comrade Zone Commander Mel Robertson. Thanks, Mel.

Legion Week begins this coming Sunday. Your branch is starting it off on Sunday with a parade to the United Church in Haliburton. After services, members and guests will return to the Legion for the very impressive ceremony of the signing of the Legion Articles of Faith at 1 p.m. All Legion Zone and Branch Executives plus federal, county and municipal government officials and presidents of various service clubs will sign these articles. Children's games have been organized and will be supervised during the Legion Family Picnic in the Ball Park on Sunday afternoon. There will also be adult horseshoe tournaments, a beef barbecue and entertainment in the Legion. Come to these ceremonies and games. Join your Legion in getting Legion Week started in a great way.

On August 6 GNR's Brad Robinson, Kevin Barnum and Fred Roberts (left to right), sons of Bud and Barb Robinson, Terry and Norma Barnum, and Fred and Chris Roberts, joined the Royal Canadian Legion Branch 129 Haliburton before leaving on August 9 for a 4 year hitch in Lahr, West Germany. The Haliburton boys are part of Z.BTY 1 RCHA.

Home Support

The nominating committee of the Haliburton County Home Support Services has been working very hard to find executive and board of directors for our new year commencing September 20. Many of the nominees are people who have been faithful for many years and bring their expertise to us once again. Some are newcomers who are interested in getting more involved with Home Support. Each share the love of people and the desire to reach out to help our seniors and disabled persons to remain in their homes. Together we will maintain this.

Please join us at our

annual meeting to meet the nominees elect and our future executive and board of directors on Friday, September 20 at the Haliburton Legion. It will commence with a turkey dinner provided by the Ladies Auxiliary of the Legion at a cost of \$5 per person. Dinner reservations are required by September 13. Please call 457-2941 to have your name put on our list. Our guest speaker will be Marlene Edwards, Director of Homecare for Haliburton Victoria Pine Ridge. The dinner will be served at 12 noon. Our meeting will start at approximately 1:30. Plan to attend and bring a friend. Everyone is welcome.

Rain causes floods, and frustration

Coboconk News

by Shiela Lake

Thursday evening saw many of us battling with flood waters, no power to run the sump pump and in general, real frustration. The power went off before six and never came back until just after nine. We drove around trying to locate a gasoline powered pump but everyone who had one, had it in use.

Betty Moore, Ben Farrow, John Wilms, Cameron Funeral Home, Doug Boyce, Frank Spry and us - were some of those who were having a problem. When power finally came on we pumped water with two sump pumps until eleven p.m. When we got up again

at 6 a.m. we found water very deep in the basement and resorted to having a septic pumper take 2000 gallons of the stuff off the premises, and we then continued pumping all day. Frank and Mary Spry are not yet sure of exact damage but a freezer, washer, dryer, are among the things damaged by water.

It gives us some understanding of what people suffer when nature goes wild, such as the Florida residents who suffered so much a few days ago when a tornado struck there. We can still count our blessings as damage was mostly from flooded basements. I do not know of

anyone's roof falling in, nor windows knocked out so aren't we really fortunate? Mrs. Rose Rocchio spent a few days with daughter Francie Gattie at Mississauga recently.

Mrs. F. Nesbitt visited son Ed and family in Oshawa last week.

Winners in the seniors card games held in Coboconk Community Hall for the past two weeks are as follows: August 27 euchre: Judy McDonald, 78; Jean Barkwell, 76. Most lone hands, Jean Barkwell, 5; consolation, Daisy Faulkner, 38.

Gents, Tom Bowins, 75; Stan Stewart, 73; most lone hands, Chas Faulkner, 5; consolation, Ed Cooper, 41; bridge, Vi Gagne, 5420; Jack McNeil, 5330; consolation, Alex Gagne, 610.

September 2 games: euchre, Freda Boyce, 78; Inga Wassell, 67; most lone hands, Pat Dewell, 4; consolation, Ada Thomas. Gent's, Ivy Boyce, 76; Weldon Neal, 74; most lone hands, Ed Holland, 4; consolation, Russ Spencely. Bridge, June Barker, 5120, Jack McNeil, 4590, consolation, Bob Wright, 1400.

Ont. Naturalists

from page 5

voraciously, upon a variety of plant material. Occasionally, they'll also eat invertebrates, or if under stress of overcrowding, each other. In time, they seek out or enlarge cavities - as little caves - under stones, boards or debris. Sometimes they'll enlarge the mouths of abandoned insect or worm burrows.

The crickets pass through a series of moults, each time splitting and shedding their rigid outer skin (which acts as a skeleton) to reveal a new larger one beneath.

Because they're so efficient at converting huge quantities of plant material into crickets, and so effective at hiding and moving quickly to escape through meadow's lattice, vast numbers make it to the final moult, which gives us our thousands - millions - of troubadours about this time each fall.

Crickets are among the many, highly beneficial insects that help convert plant material back into soil nutrients, at the same time, providing food for a host of other animals. Our native crickets are harmless, and fascinating indeed.

Why not renew an acquaintance, forgotten since childhood? It's as easy as looking under a board. Or, listening to the chorus this evening.

NOTICE

IN THE MATTER OF THE MUNICIPAL ACT AND IN THE MATTER OF A PROPOSED BY-LAW OF THE MUNICIPALITY OF DYSART ET AL TO STOP UP, CLOSE AND CONVEY PART OF THE ORIGINAL SHORELINE ROAD ALLOWANCE ABUTTING LOTS 28, 30, 31, 32, 33 and 34 IN REGISTERED PLAN NO. 378 IN THE TOWNSHIP OF HAVELOCK, IN THE COUNTY OF HALIBURTON.

NOTICE IS HEREBY GIVEN pursuant to Chapter 302, Section 301 of The Municipal Act, as amended, that the Township Council of the Municipality of Dysart et al proposes to consider and if deemed advisable to pass at its regular meeting to be held at the Council Chambers, Haliburton, Ontario on Tuesday, October 15, 1985 a By-law to Close, Stop-Up and Convey part of the Original Shoreline Road Allowance abutting Lots 28, 30, 31, 32, 33 and 34 in Registered Plan No. 378, in the Township of Havelock, in the County of Haliburton.

AND WHICH SAID parcel or tract of land is illustrated and shown as Parts 1 to 7 inclusive on a plan of survey by Robert Woodcock, Ontario Land Surveyor, dated June 28, 1985 and available for inspection at the Township Office of the Municipality of Dysart et al, Haliburton, Ontario.

AND TAKE FURTHER NOTICE that before passing the said By-law at its meeting to be held at the time and place above-mentioned, the Council of the Municipality of Dysart et al shall then and there hear in person or by his counsel, solicitor or agent, any person who claims that his land will be affected by the said By-law and who applied to be heard.

DATED at Haliburton, Ontario this 15th day of August, 1985.

Wayne B. Wood, C.M.C.
Clerk-Administrator

Summer students leave U.C.W. starts new season

Senior League

by Bert Harrison at Hyland Crest

I'm starting this letter on the 30th of August when our faithful entertainers came, Grace Coburn to lead us in a sing-a-long and Florence Robinson the music to play. Thank you for coming we would like to say.

This being a long holiday weekend there was much activity here about, with some people coming to visit relatives and others to take them out.

A tribute to Chantelle McKnight: she spent her summer holidays here and was a real good help to us in many different ways. She kept the bingo games going when the rest wanted to quit for the summer. She was always looking for different ways to help, taking residents down to fun and fitness in their wheelchairs, staying to help with the exercises while still there. She re-writes my Senior League letter and does a good job too. Many other good deeds she does, we are just naming a few. Now she must go back to school to learn some more of the golden rule. Please accept this tribute from the residents here who must say goodbye to one we hold most dear. We watched interesting movies each afternoon to keep us well entertained until the long holiday was over, and life returned to normal again.

A very interesting service was held again in the chapel

Sunday night when the Burgess and the Thompson's were there to do the job just right.

Two of our waitresses have left us to get more education and others have come to take their place. So much is happening here it is hard for me to keep pace.

We welcome Marie Baker back from a two-week vacation. Edna Cowan spent the weekend with her daughter over Lochlin way. We see Leslie and Nine Prentice visiting here, and others coming from far and near. Annie Cox is doing alright, some of her family come to visit her every day or night. Lily Hogg checks her weight on the scales most every day. She has gained quite a few pounds since she has come to live here by the way.

Tuesday morning Rev. George Elliot of St. Paul's Anglican Church, Minden, conducted a communion service in the chapel this September 3 day. We thank him for coming, and Fred Ballard for the music to play.

Linda showed interesting movies Tuesday afternoon to all who came to see, 'What Price Beauty?', 'Vineland Mystery' and 'Discovery'.

We welcome Jack Shaw back from a holiday. He said they had a good time while they were away. We welcome Edith Welch back with us again from Peterborough hospital. What the trouble is seems to be a riddle.

The ladies of the Kinmount Legion came over to us this 5th September day and brought and served a real good lunch. We would like to have thanked them by

Hockey registration to be held Thursday Norland News

by Kelly Graham

As this column hits the press I hope we're seeing the end of a long, wet week. If this continues we'll have to start construction on an ark.

As we slowly (but surely) progress into winter the hockey season starts up once again. Consequently the Minden Minor Hockey Association will be holding their registration on Thursday, September 12 from six and nine p.m. The registration will be held one night only and the place to be is upstairs in the municipality building. If you are interested and seek more information please call 286-2707.

Congratulations to the Norland Old Timers hockey team who won a recent tournament in Fenelon Falls.

As some of you may have noticed the recreation centre at Ward Park is really coming along well and right on schedule. An opening ceremony and dance is planned for Thanksgiving weekend. Just one more month to go!

Here are the euchre scores from last week's senior citizen games at Coboconk: ladies; Freida Boyce, first, Inga Wassell, second, Ada Thomas, consolation, Pat Dewell, lone hands; men's, Ivy Boyce, first, Weldon Neal, second, Russ Spencely, consolation, Ed Holland, lone hands.

In bridge the winners were: June Barker, first, Jack McNeal, second, and Bob Wright, consolation.

playing some music but this we couldn't do. We had a residents council meeting which we must attend but we thank you for coming, please come back again.

We wish to thank our bingo callers who came back Thursday night to call the bingo numbers and do the job just right. Chantelle McKnight and helpers came to keep the game alive some players had real good luck. Edna Cowan said she won five.

Carnarvon News

Mrs. Edith Russell spent last week in Toronto going back with the McGregors and staying with grandson Tom and Terry Gardner and new great granddaughter, Taylor.

Mr. Harold Tuck of Brockville spent the weekend with the Max McKays while he was attending The Ontario Fire College in Gravenhurst. Max and Clare Lytle are now on a fishing trip in northern Ontario.

Since the dreadful disease of AIDS has many people hygiene conscious, here's a tip for travellers who are forced to use public washrooms. Take along a plastic shopping bag after cutting a hole in the centre as this can easily be slipped over a toilet seat and discarded when you return home. Even though doctors say it cannot be transmitted this way, why take chances? Not enough is known about it.

Mr. and Mrs. Cliff Skelding spent a week visiting with relatives and friends.

Mrs. Doris Rednes is in Niagara Falls visiting with her sister Mrs. Shirley Edmunds.

The first meeting after the summer break of the U.C.W. was held at the home of Mr. and Mrs. Sinclair Russell in

the form of a pot luck luncheon on Wednesday, September 4.

Among the many young people leaving home for the first time was David McKay, son of Mr. and Mrs. Bill McKay who has moved to Oshawa where he will be attending Durham College.

We seem to be getting more than our share of bad weather with tornados as close as Lindsay and torrential rains making almost impossible to harvest garden produce.

Bill McKay was in Toronto for a couple of days, seeing a bone specialist.

New Scottish dancers welcome

Guilford News

Eleanor Cooper

Whatever do you do in the winter? Well, it's only fall and for a start you take your kids back to school or college depending on their age (and yours). You attend the first meeting of Little Theatre to find out who's going to act in "Dark Deeds at Swan's Place or Never Trust a Tattooed Sailor". You go to a wine and cheese party at Ralls' End Gallery to help kick off the community concert series for the season. If you are skillful at juggling your time you have a Scottish dancing practice to keep you interested and well exercised. New members for any of the above activities are always welcome.

A craft group begins on Wednesday, September 11 at St. Andrew's Church in the afternoon. Just come and bring whatever you are working on. An exchange of ideas and learning from someone else how to do different handicrafts is always fun.

Playschool begins twice a week at the centre in the mornings. Phone Linda Sisson for information, 754-3036.

This Saturday night at 8:30 the Barber Shop singers from Oshawa will be their usual entertaining selves for the delight of all who attend. Refreshments will be served

afterwards.

Shirley and Ken Rapson were in Toronto for a week where Shirley set up an information booth for the Chamber of Commerce at Eaton's Centre for fall publicity for Haliburton County.

Frank Rosseter visited his sister, Louise Cooper on the weekend when he helped with the monitoring of the Corduroy Enduro races.

"WHERE THE ACTION IS"

Ag. Report

The demand for pre-conditioned calves at the 1984 Peterborough and Victoria Cattleman's Pre-Conditioned Calf Sale in Lindsay was excellent. As a result, the Stocker Sale Committee would like to fill this year's sale being held on November 6 with pre-conditioned calves.

Last year's buyers paid a premium of 4 cents/lb. for pre-conditioned steer calves and 8 cents/lb. for pre-conditioned heifer calves. As a result, the local cow-calf producers who pre-condition their calves receive a definite financial advantage directly from the marketplace; those on the Red Meat Plan also receive a grant of \$5 for pre-conditioned calves.

The pre-conditioned calves sold to feedlot operators in 1984 were checked later in the winter and it was found that the health and performance of these calves was excellent.

Because the 1984 pre-conditioned calf sale provided better returns to the cow-calf producers and better calves for the feedlot purchasers, we are encouraging all producers in the area who wish to improve the marketability of quality beef calves to consider pre-conditioning this fall.

Producers who are planning on pre-conditioning their calves need to start the process immediately. Con-

sult your local veterinarian right away as he/she plays an important role in the pre-conditioning process. Details of the pre-conditioning program are available in an OMAF factsheet from the County Agricultural Office, or from your veterinarian, or in one of the recent County Cattleman's newsletters. As soon as you know how many calves you will be pre-conditioning for the cattleman's sale, call a member of the sale committee to consign your calves - the deadline for consigning is October 1.

The purpose of the pre-conditioning program is to reduce the stress experienced by calves at sale time as much as possible and thus greatly improve the health of the calves following the sale. In addition, studies have proven that pre-conditioned calves will gain more weight in the month between weaning and the sale than calves which are nursing their mothers until sale time.

Pre-conditioned calves are dehorned, castrated and vaccinated; they are weaned for at least thirty days and they have become adapted to feed bunks and waterers. Producers participating in the pre-conditioning program work closely with their veterinarian and then the veterinarian applies a special green pre-conditioned tag to each calf and issues a veterinary certification which accompanies the calves through the sale.

JOB OPPORTUNITIES

THANK YOU

The family of the late Russell Robertson would like at this time to thank all those who helped in so many ways with donations, cards, phone calls and prayers. Special thanks to the ambulance drivers, doctors and nurses of the Meaford General Hospital, also the Gordon Monk Funeral Home, Minden, for their great kindness shown. Thanking you all again. Isabel and the Robertson family 27-B-11

Joyce and Ben Waterton offer a very sincere thank you for the love, kindness and generosity shown to us over the years, and for the thoughtful organizing of our open house last Friday, a wonderful surprise we will never forget. 27-P-11

THANK YOU

Thank you to all my friends on the O.M.H.A. Bantam hockey team for the farewell party given to me. Special thanks to Tom Russell, Bob Woodcock and George Nicholls for the great coaching job.

Thanks, Colin Hunter 27-P-11

IN MEMORIAM

Maxeen Rose Irene Smith - 1959; Kent William Smith - 1980. We miss your smiles and big bright eyes and know some day we will be a family again up in God's heavenly home. Sadly missed by, Mom, Dad, brothers and sisters 32-P-11

In Memory of my beloved brother, Larry Wilford. Pain dies. Wise memory heals Affliction with the balm of kindly years; Sweet are a cherished, ancient sorrow's tears.

Joy lives. Through desert days The starved heart feeds on bygone happiness; For ay endures one hour of blessedness. dearly loved and sadly missed by Pamela. 32-P-11

Shop Locally

it makes more cents!

That's right, you save time, money and gasoline by shopping locally. Every family realizes the soaring price of travelling to big cities to shop

Today, every family budgeter knows the importance of counting pennies and making the dollar last longer and buy more.

Shopping locally can assure you of quality, variety and that extra touch - friendly service from people who stand behind what they sell

NO NEED TO SHOP ELSEWHERE

Remember, money spent locally creates prosperity that promotes community improvements.
